The Boarding House:

The Boardinghouse in Nineteenth-Century America Wendy Gamber, 2007-04-16 In nineteenth century America the bourgeois home epitomized family morality and virtue But this era also witnessed massive urban growth and the acceptance of the market as the overarching model for economic relations A rapidly changing environment bred the antithesis of home the urban boardinghouse In this groundbreaking study Wendy Gamber explores the experiences of the numerous people old and young married and single rich and poor who made boardinghouses their homes Gamber contends that the very existence of the boardinghouse helped create the domestic ideal of the single family home Where the home was private the boardinghouse theoretically was public If homes nurtured virtue boardinghouses supposedly bred vice Focusing on the larger cultural meanings and the commonplace realities of women's work she examines how the houses were run the landladies who operated them and the day to day considerations of food cleanliness and petty crime From ravenous bedbugs to penny pinching landladies from disreputable housemates to boarder's beef Gamber illuminates the annoyances and the satisfactions of nineteenth century boarding life
