Staatliche Armenfürsorge Im Herzogtum Nabau 18061866:

Staatliche Armenfürsorge im Herzogtum Nassau, 1806-1866 Peter Blum, 1987 **Welfare, Modernity, and the Weimar State** Young-Sun Hong, 2014-07-14 This is the first comprehensive study of the turbulent relationship among state society and church in the making of the modern German welfare system during the Weimar Republic Young Sun Hong examines the competing conceptions of poverty citizenship family and authority held by the state bureaucracy socialists bourgeois feminists and the major religious and humanitarian welfare organizations She shows how these conceptions reflected and generated bitter conflict in German society And she argues that this conflict undermined parliamentary government within the welfare sector in a way that paralleled the crisis of the entire Weimar political system and created a situation in which the Nazi critique of republican welfare could acquire broad political resonance The book begins by tracing the transformation of Germany's traditional disciplinary poor relief programs into a modern bureaucratized and professionalized social welfare system It then shows how in the second half of the republic attempts by both public and voluntary welfare organizations to reduce social insecurity by rationalizing working class family life and reproduction alienated welfare reformers and recipients alike from both the welfare system and the Republic itself Hong concludes that in the welfare sector the most direct continuity between the republican welfare system and the social policies of Nazi Germany is to be found not in the pathologies of progressive social engineering but rather in the rejection of the moral and political foundations of the republican welfare system by eugenic welfare reformers and their Nazi supporters Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Sex, Religion, and the Making of Modern Madness** Ann Goldberg, 2001-02-22 How did the affliction we now know as insanity move from a religious phenomenon to a medical one How did social class gender and ethnicity affect the experience of mental trauma and the way psychiatrists diagnosed and treated patients In answering these questions this important volume mines the rich and unusually detailed records of one of Germany's first modern insane asylums the Eberbach Asylum in the duchy of Nassau It is a book on the historical relationship between madness and modernity that both builds upon and challenges Michel Foucault's landmark work on this topic a bold study that gives generous consideration to madness from the patient's perspective while also shedding new light on sexuality politics and antisemitism in nineteenth century Germany Drawing on the case records of several hundred asylum patients Sex Religion and the Making of Modern Madness reconstructs the encounters of state officials and medical practitioners with peasant madness and deviancy during a transitional period in the history of both Germany and psychiatry

As author Ann Goldberg explains this era witnessed the establishment of psychiatry as a legitimate medical specialty during a time of social upheaval as Germany underwent the shift toward a capitalist order and the modern state Focusing on such illnesses as religious madness nymphomania and masturbatory insanity as well as the construct of Jewishness she probes the daily encounters in which psychiatric categories were applied experienced and resisted within the settings of family village and insane asylum The book is a model of microhistory breaking new ground in the historiography of psychiatry as it synthetically applies approaches from the history of everyday life anthropology poststructuralism and feminist studies In contrast to earlier anecdotal studies of the asylum patient Goldberg employs diagnostic patterns to illuminate the ways in which madness both in psychiatric practice and in the experience of patients was structured by gender class and race She thus examines both the social basis of rural mental trauma in the Vorm rz and the political and medical practices that sought to refashion this experience This study sheds light on a range of issues concerning gender religion class relations ethnicity and state building It will appeal to students and scholars of a number of disciplines
