Scientist, Supportive Care Program Nessa Coyle Director, Pain & Palliative Service Department of Neurology Memorial
Sloan-Kettering Cancer Center, 2005-11-10 Originally published in 2001 the Textbook of Palliative Nursing has become the
standard text for the field of hospice and palliative care nursing In this new edition the authors and editors have updated
each chapter to ensure that the content is evidence based and current references are included They also have retained the
important focus on case studies throughout the text and practical clinically relevant tables figures and other resources Like
the previous edition this text has an introductory section of the general principles of palliative care followed by a
comprehensive section on symptom assessment and management encompassing twenty one different symptoms Other key
sections include psychosocial support and spiritual care providing holistic perspective on care of patients facing advanced
disease The text also includes an innovative section on special populations addressing those most in need of palliative care
The textbook is a useful resource for all nurses with the excellent section on end of life care across settings In this new
edition the pediatric palliative care section has been greatly expanded and includes seven separate chapters on pediatric
care It includes a section on special issues addressing topics such as ethical considerations nursing research and public
policy perspectives and concludes with a section presenting models of excellence including six international models This
edition also offers a narrative on dying based on a spouse's perspective The text includes an appendix with an extensive list
of resources for nurses in the field **The Encyclopedia of Aging: L-Z** Richard Schulz, 2006 Comprehensive
multidisciplinary encyclopedia dealing with aging processes and older adults Intended for the educated inquirer who needs a
