

Strategic Stability in South Asia: The Evolving Challenges and Potential Opportunities for India and Pakistan

Sitara Noor*

Abstract

The strategic stability debate in South Asia is largely influenced by the complex and volatile relationship between nuclear rivals India and Pakistan. Growing competition between the United States (U.S.) and China and border dispute between China and India are influencing the security dynamics of the region, but it is the aggravating hostility between New Delhi and Islamabad over ongoing issues such as Kashmir and terrorism charges against one another that have increased risk of war in the region. The fragile balance of terror is influenced by various challenges such as evolving nuclear postures, regional power competition, conventional and nuclear arms race, and emerging technologies. In that regard, it is imperative that both states engage to resolve outstanding issues, develop confidence and evolve a strategic restraint regime to strengthen strategic stability in the region.

Keywords: *Strategic Stability, India, Pakistan, Nuclear, CBMs, South Asia.*

Introduction

South Asian security dynamics offer one of the most complex and volatile situations in the world with three nuclear armed states — China, India and Pakistan — sharing a complicated relationship. Within this equation, India and Pakistan have been in a confrontational relationship since their independence from the British rule.¹ The incessant Indo-Pakistani rivalry is fuelled by ongoing territorial issues arising from the contested partitioning of the two countries; resource competition and

Strategic Stability Between The Superpowers:

Strategic Stability Between the Super-powers Paul Stockton, 1986 Magtbalancen set i lyset af den seneste politiske og tekniske udvikling **The Geopolitics Of Super Power** Colin S. Gray, 2021-10-21 What is Soviet American competition all about Is the Soviet Union a security problem that the United States must solve Or is it an insecurity condition with which the U S must learn to live and if so on what terms What kind of a player is the United States in the great game of power politics In *The Geopolitics of Super Power* one of our most respected strategic theorists answers these and other questions In geopolitical terms Colin Gray sees the Soviet American antagonism as an enduring contest between a continental empire and a maritime coalition each with its distinctive character and purposes Gray explores the roots of the American style in foreign policy and strategy and how that style relates to defense options He identifies four broad alternatives for U S national security policy passive and active means of containment disengagement from foreign security commitments and the rollback of the Soviet empire Gray argues vigorously for active containment for the systematic deemphasis of nuclear weapons and for the intelligent use for deterrence and defense purposes of the West s great competitive strengths in the political economic and technological spheres **The Gulf And The Search For Strategic Stability** Anthony H. Cordesman, 2019-09-06 This book provides an extensive military and strategic analysis of the Gulf and the Arabian Peninsula assessing the regional military balance the internal security and stability of each Gulf nation the evolution of each nation s forces from 1969 into 1983 and the impact of defense spending and Western and Soviet bloc arms sales in the region Comprehensive statistics are provided on arms transfers to each country since 1969 and on the forces each nation is capable of deploying in the Gulf

Strategic Stability in the Post-Cold War World and the Future of Nuclear Disarmament Melvin L. Best, Jr., John Hughes-Wilson, Andrei A. Piontkowsky, 2013-04-17 This Report contains a Consensus Report and the papers submitted to the April 6 10 1995 NATO Advanced Research Workshop on Strategic Stability In The Post Cold War World And The Future Of Nuclear Disarmament held in Washington D C United States Of America of at The Airlie Conference Center The workshop was sponsored by the NATO Division Scientific and Environmental Affairs as part of its ongoing outreach programme to widen and deepen scientific contacts between NATO member countries and the Cooperation Partner countries of the former Warsaw Treaty Organization The participants recognize that the collapse of the former Soviet Union has left a conceptual vacuum in the definition of a new world order Never before have the components of world order all changed so rapidly so deeply or so globally As Henry Kissinger points out the emergence of the new world order will have answered three fundamental questions What are the basic units of the international order What are their means of interacting and What are the goals on behalf of which they interact The main question is whether the establishment and maintenance of an international system will turn out to be a conscious design or the outgrowth of a test of strength The concept of a planning framework that could shape or govern these interactions is emerging and may now be at hand Capturing this emerging

framework is the thrust of this NATO sponsored Advanced Research Workshop **United States military space into the twenty-first century**, 2002 This is the 42nd volume in the Occasional Paper series of the U S Air Force Institute for National Security Studies INSS This volume presents two important papers on United States military space The first paper What is Spacepower and Does It Constitute a Revolution in Military Affairs examines the concept of spacepower as it is emerging within the U S military and business sectors to establish the basis for military space roles and implications It also posits military commercial sector linkages as the best near term road map for future development As commercial activities expand the importance of United States space and as technological advances enable military missions Hays sees expanded military roles including space weaponization on the horizon He concludes that military space has already had a significant impact on the American way of war That trend will only continue as the promise of a true space led revolution in military affairs awaits eventual space weaponization Given an increasingly important U S commercial and military presence in space the second paper Space Related Arms Control and Regulation to 2015 Precedents and Prospects presents a detailed analysis of existing regulations and controls that constrain and shape military space use and development It also presents a comprehensive examination of current and future issues that will define likely arenas of international efforts to further control military space The United States must be very aware of the possible consequences for its overall commercial and military space efforts in addressing these issues Finally the paper suggests areas where some current regulatory emphasis could benefit the United States indicating areas for current policy emphasis Together the two papers provide a timely and important examination of the current state and the likely future of United States military space National Security Affairs Monograph Series ,1976

Israel's Nuclear Dilemma (Routledge Revivals) Yair Evron,2014-06-03 Originally published in 1994 Yair Evron opens the book with an account of the development of Israel s nuclear doctrine and the internal disagreements within the Israeli political and strategic elite over how nuclear policy should be conducted There follows an analysis of the reactions from Arab states and of how with the exception of Iraq they have so far refrained from developing their own nuclear weapons
