Assigning Economic Value to Natural Resources National Research Council, Division on Earth and Life Studies, Commission on Geosciences, Environment and Resources, Commission on Geosciences, Environment, and Resources, 1994-02-01 There has been a lot of discussion among policymakers particularly within the Clinton Administration about how to make U S economic indicators such as GNP more accurately reflect the state of the environment This book explores the major issues and controversies involved in incorporating natural resources and the environment into economic accounts The first section of the volume based largely on a three day workshop of experts in the field explains the possibilities and pitfalls in so called green accounting This is followed by a selection of nine individually authored papers including one by Nobel prize winner Robert Solow that probe scientific aspects of this issues in greater depth

The Taxing Road to Sustainable Growth: Resource Productivity and Corporate Taxation Mark Bowler Smith, 2013 This book explores one way in which a tax system might help promote competitiveness and sustainable development Focusing on the UK corporation tax it recommends the introduction of a Resource Productivity Tax Credit where resource productivity is defined as the money value of outputs relative to the money value of material resource and non renewable energy inputs The book is structured such that it first explores the legal mandate to promote competitiveness and sustainable development as contained in article 3 3 of the Treaty of the European Union It then explores what competitiveness and sustainable development actually mean particularly in an EU policy context through the lenses of Europe 2020 and the EU Sustainable

Development Strategy It concludes that not only is there a great deal of common ground between competitiveness and sustainable development as objectives but that increasing resource productivity is a necessary means to those shared ends After exploring EU tax policy and the relevant rules of the UK corporation tax for evidence of any kind of focus on competitiveness and sustainable development as well as examining the suitability of corporate income taxes as policy instruments for increasing resource productivity the book concludes that there is ample scope for a statutory tax incentive to be appended to the UK corporation tax to help fulfil the article 3 mandate The headline objective of the Resource Productivity Tax Credit is to promote higher resource productivity in the trading activities of individual companies in particular targeted sectors through improvements to the knowledge base of those companies rather than through the increased use of raw materials non renewable energy and or intermediate goods Nature in the Balance Dieter Helm,Cameron Hepburn,2014 This book addresses the economic and policy issues involved in biodiversity protection It brings together conceptual and empirical work on valuation international agreements the policy instruments and the institutions Social Costs and Sustainability Olav Hohmeyer,Richard L.
