The Jarmusch Way Julian Rice, 2012-10-12 Since the early 1980s Jim Jarmusch has produced a handful of idiosyncratic films that have established him as one of the most imaginatively allusive directors in the history of American cinema Three of his films Dead Man 1995 Ghost Dog 1999 and The Limits of Control 2009 demonstrate the director's unique take on Eastern and Aboriginal spirituality In particular they reflect Jarmusch's rejection of Western monotheism's fear driven separation of life and death While these films address historical issues of imperialism colonialism and genocide they also demonstrate a uniquely spiritual form of resistance to conditions that political solutions have not resolved The impact of Dead Man Ghost Dog and The Limits of Control cannot be fully felt without considering the multicultural sources from which the writer director drew In The Jarmusch Way Julian Rice looks closely at these three films and explores their relation to Eastern philosophy and particular works of Western literature painting and cinema This book also delves deeply into the films association with Native American culture a subject upon which Rice has written extensively Though he has garnered a passionate following in some circles Jarmusch remains critically underappreciated Making a case that this director deserves far more serious attention than he has received thus far The Jarmusch Way thoroughly discusses three of his most intriguing films
