The Music and Art of Radiohead provides compelling close readings of the English band's music lyrics album cover art and music videos as well as critical commentary on interviews reviews and the documentary film *Meeting People is Easy*. Established and emerging academic scholars engage with Radiohead's music and art via concerns of broader implication to contemporary cultural studies. Topics range from the band's various musical and multivalent social contexts to their contested situation within a global market economy from asking the question how free is art to considering the band's musical influences and radical sonic explorations. Together the essays form a comprehensive discussion of Radiohead's entire oeuvre from *Pablo Honey* to *Hail to the Thief* with a special focus on the critically acclaimed best selling albums *Kid A* and *Amnesiac*.

A critical mapping of the multiplicities of Finnish artist and technology pioneer Erkki Kurenniemi, composer of electronic music, experimental filmmaker, inventor, collector, futurologist. Over the past forty years, Finnish artist and technology pioneer Erkki Kurenniemi (b. 1941) has been a composer of electronic music, experimental filmmaker, computer animator, roboticist, inventor, and futurologist. Kurenniemi is a hybrid: a scientist, humanist, artist. Relatively unknown outside Nordic countries until his 2012 Documenta 13 exhibition, in 2048 Kurenniemi may at last be achieving international recognition. This book offers an excavation, a critical mapping, and an elaboration of Kurenniemi's multiplicities. The contributors describe Kurenniemi's enthusiastic and rather obsessive recording of everyday life and how this archiving was part of his process, his exploratory artistic practice with productive failure, an inherent part of his method, his relationship to scientific and technological developments in media culture, and his work in electronic and digital music, including his development of automated composition systems and his video organ DIMI O. A Visual Archive, a section of interviews with the artist, and a selection of his original writings translated and published for the first time, further document Kurenniemi's achievements. But the book is not just about one artist in his time; it is about emerging media arts interfaces and archival fever in creative practices, read through the lens of Kurenniemi.

Many other terms exist: motion pictures, or just pictures, or picture, the silver screen, photoplays, the cinema, picture shows, flicks, and commonly
