Resources in Education ,1994-04 **Evaluation of Microfinance Institutions in Varanasi with Special Reference to Client Education** Vinita Kalra,H. P. Mathur,2018-12-21 In the last two decades microfinance has gained growing recognition as an effective tool for improving the quality of life and the living standard of poor and low income people

Microfinance's popularity reached a peak when the United Nations declared 2005 the International Year of Microcredit and when one year later the author of *Banker to the Poor* Muhammad Yunus was awarded the Nobel Peace Prize. This recognition has given rise to a movement that was supposed to accomplish social and financial goals simultaneously and without any friction. However, microfinance as an industry was shaken for the first time in 2008 as a consequence of the international financial crisis and it again suffered problems more recently. It was reported that the populist moves by politicians led to a mass default of loans of worth more than US 1.5 billion in the southern Indian state of Andhra Pradesh, the biggest market for the microfinance institutions in India. Measures taken to ensure that the 2008 crisis and its consequences are not repeated include bringing clients' protection principles to work and building client awareness in order to make informed decisions. This book focuses on the efficacy of financial education as a tool towards attaining client protection. It also utilizes the Microfinance Clients Awareness Index to evaluate the factors that impact the level of financial awareness for microfinance clients.
