BY BALA CHAKRAVARTHY. ,2003 **Innovating Strategy Processes** Steven W. Floyd, Johan Roos, Claus D. Jacobs, Franz W. Kellermanns, 2009-02-09 Innovating Strategy Process presents a series of reflective essays by established and emerging scholars on the subject of innovation considering it both as an outcome of strategy and as a process in itself Contains new ideas and rich case descriptions that will trigger creative thinking about how to design a more innovative strategy process Offers new conceptual frameworks for analyzing and designing strategy process Addresses cutting edge topics such as play as the means and art as the impetus for strategy making the role of emotion in new venture decision making and science and entrepreneurship as a source of innovative strategies Signals the future direction of the field *The Paradoxical Foundation of Strategic Management* Andreas Rasche, 2007-10-25 This book offers a systematic critique of the scientific discourse of strategic management It uncovers scholars unquestioned assumptions and shows that by upholding these assumptions researchers obscure the paradoxical nature of strategic reasoning To uncover the paradoxes of strategic management the author refers to the philosophy of Jacques Derrida He exposes the paradoxes that inevitably occur when theorizing about corporate strategy along the dimensions strategy context process and content and shows how these paradoxes can enrich future thinking about strategic problems The analysis is completed by a discussion of theoretical and practical implications which highlight the need to research strategy not as something an organization has but as something an organization does Such a practice perspective gives reference to the paradoxical ground that strategic management rests on and enriches scholars ability to reflect on practitioners tasks while doing strategy in organizations The Role of the Social Context for Strategy-Making Karolin Marx, 2012-12-06 v Foreword Over the years strategic initiatives have received increasing importance as core vehicles for strategy making These coordinated undertakings enable firms to reinforce the current strategy or alter it in order to realign the organization in accordance with changed environmental conditions Despite the growing importance of strategic initiatives the overall understanding of their professional management is still limited While previous research has acknowledged the importance of the organizational context for the successful development of strategic initiatives so far only little research has focused on this important link Especially the social side of the organizational context has remained under investigated Karolin Marx addresses this shortcoming and analyzes the role of the social context represented by the embeddedness of the initiative team in the intrafirm network for strategy making As

initiatives are pursued by teams it is reasonable to assume that the type and quality of the team's social relations to other organizational units impacts the thinking and behavior within the team and thus the performance of the initiative
