*Guide to Reprints* Albert James Diaz,2008     *Singing Dante: The Literary Origins of Cinquecento Monody* Elena Abramov-van Rijk,2017-07-05 This book takes its departure from an experiment presented by Vincenzo Galilei before his colleagues in the Florentine Camerata in about 1580 This event namely the first demonstration of the stile recitativo is known from a single later source a letter written in 1634 by Pietro dei Bardi son of the founder of the Camerata In the complete absence of any further information Bardi s report has remained a curiosity in the history of music and it has seemed impossible to determine the true nature and significance of Galilei s presentation That unfortunately still remains true for the music which is lost Yet we know a crucial fact about this experiment the poetic text chosen by Galilei it was an excerpt from the Divine Comedy by Dante Alighieri the Lament of Count Ugolino Starting from this information the author examines the problem from another angle Investigation of the perception of Dante s poetry in the sixteenth century as well as a deeper enquiry into cinquecento poetic theories and especially phonetics leads to a reconstruction of Galilei s motives for choosing this text and sheds light on some of the features of his experiment     **History of Painting: The painting of the renaissance** Alfred Woltmann,1887     *History of Painting* Alfred Friedrich Gottfried Albert Woltmann,1894
