Situated Meaning Inside And Outside In Japanese Self Society And Language:

Situated Meaning Jane M. Bachnik, Charles J. Quinn Jr., 2019-01-15 *Situated Meaning* adds a new dimension both literal and metaphoric to our understanding of Japan. The essays in this volume leave the vertical axis of hierarchy and subordination an organizing trope in much of the literature on Japan and focus instead on the horizontal interpreting a wide range of cultural practices and orientations in terms of such relational concepts as *uchi* inside and *soto* outside. Evolving from a shared theoretical focus, the essays show that in Japan the directional orientations inside and outside are specifically linked to another set of meanings denoting self and society. After Donald L. Brenneis's foreword, Jane M. Bachnik, Charles J. Quinn Jr., Patricia J. Wetzel, Nancy R. Rosenberger, and Robert J. Soble discuss *Indexing Self and Social Context: Failure to Index Boundary Disintegration and Social Breakdown*. This is the topic of Dorinne K. Kondo, Matthews M. Hamabata, Michael S. Molasky, and Jane Bachnik. Finally, Charles Quinn explores *Language as a Form of Life*. Jane M. Bachnik is Associate Professor of Anthropology at the University of North Carolina at Chapel Hill. She is presently pursuing research in Japan under a Senior Fellowship Grant from the Japan Foundation. Charles J. Quinn Jr. is Associate Professor of East Asian Languages and Literatures at the Ohio State University. Originally published in 1994, *The Princeton Legacy Library* uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Life in a Japanese Women's College Brian J. McVeigh, 2013-09-13 One third of the Japanese female workforce are office ladies and their training takes place in the many women's junior colleges. Office ladies are low wage, low status secretaries who have little or no job security. Brian J. McVeigh draws on his experience as a teacher at one such institution to explore the cultural and social processes used to promote femininity in Japanese women. His detailed and ethnographically informed study considers how the students of these institutions are socialized to fit their future dual roles of employees and mothers and illuminates the sociopolitical role that the colleges play in Japanese society as a whole.

Language in Public Spaces in Japan Nanette Gottlieb, 2014-06-11 This book throws light on ideologies, practices, and sociocultural developments currently shaping language use in Japan by departing from the more common investigation of language in private contexts and examining aspects of the language found in a range of significant public spaces: from the material, an international airport, the streets of Tokyo, the JSL classroom in Japan, and courtrooms to the electronic television dramas, local government web pages, and cyberspace. Through its study of the language encountered in such settings, the volume provides a deeper understanding of multifaceted aspects of linguistic diversity both in terms of the use of languages other than Japanese and of issues relating to the Japanese language itself. The variety of theoretical approaches brought to bear by contributing authors ensures a

substantial intellectual contribution to the literature on language in contemporary Japan This book was published as a special issue of Japanese Studies **Interpreting Japan** Brian McVeigh, 2014-07-11 Written by an experienced teacher and scholar this book offers university students a handy how to guide for interpreting Japanese society and conducting their own research Stressing the importance of an interdisciplinary approach Brian McVeigh lays out practical and understandable research approaches in a systematic fashion to demonstrate how with the right conceptual tools and enough bibliographical sources Japanese society can be productively analyzed from a distance In concise chapters these approaches are applied to a whole range of topics from the aesthetics of street culture the philosophical import of sci fi anime how the state distributes wealth welfare policies the impact of official policies on gender relations updated spiritual traditions why manners are so important kinship structures corporate culture class schooling self presentation visual culture to the subtleties of Japanese grammar Examples from popular culture daily life and historical events are used to illustrate and highlight the color dynamism and diversity of Japanese society Designed for both beginning and more advanced students this book is intended not just for Japanese studies but for cross cultural comparison and to demonstrate how social scientists craft their scholarship

An Emerging Non-Regular Labour Force in Japan Huiyan Fu, 2013-03-01 Like many industrialised nations the current employment trend in Japan centres on diversification of the labour market with an increased use of temporary labour Among a wide range of non regular labour arrangements haken are a newly legalised category of non regular workers who are typically employed by the employment agency while working at the facilities of and being under the authority of the client firm They have recently expanded exponentially under the state s deregulation policy and assumed considerable significance in political debate especially with regard to the nation s widening gaps known as kakusa This is the first anthropological study of haken and temporary agency work TAW in Japan which combines both macro and micro level analyses At the macro level haken are explored from a historical perspective with a view to showing the changing state policy and public perception of haken At the micro level how TAW is experienced by real people in concrete situations is extremely varied and complex often depending on intersecting structural variables including gender age and class The book therefore provides insight into the gap between powerful discourses and everyday life as well as a better understanding of personhood in Japan s shifting landscape of employment This book will be of interest to students and scholars of Japanese Studies

Japanese Business Asian Business and Asian Anthropology **Politeness in East Asia** Dániel Z. Kádár, Sara Mills, 2011-09-08 We use politeness every day when interacting with other people Yet politeness is an impressively complex linguistic process and studying it can tell us a lot about the social and cultural values of social groups or even a whole society helping us to understand how humans encode states of mind in their words The traditional stereotypical view is that people in East Asian cultures are indirect deferential and extremely polite sometimes more polite than seems necessary This revealing book takes a fresh look at the phenomenon showing that the situation is far more complex than these stereotypes

would suggest Taking examples from Japanese Korean Chinese Vietnamese and Singaporean Chinese it shows how politeness differs across countries but also across social groups and subgroups This book is essential reading for those interested in intercultural communication linguistics and East Asian languages **Complementation** Kaoru Horie,2000-11-15

Complementation i e predication encoded in argument slots is well renowned for its syntactic and semantic variability across languages As such it poses a tantalizing descriptive explanatory challenge to linguists of any theoretical persuasion Recent developments in Cognitive and Functional typological linguistics have enabled researchers to address various unexplored research questions on complementation phenomena The seven papers included in this volume represent the most recent endeavors to explore cognitive functional foundations of complementation phenomena from various theoretical perspectives Cognitive Grammar Mental Space Theory Typology Discourse functional linguistics Cognitive Science The seven papers are prefaced by an introductory chapter Kaoru Horie and Bernard Comrie which situates the current volume within the major complementation studies of the past forty years This work presents a new theoretical venue of complementation studies and enhances our understanding of this complex yet intriguing syntactic and semantic phenomenon **Schooling Selves** Peter

Cave,2016-06-07 Balancing the development of autonomy with that of social interdependence is a crucial aim of education in any society but nowhere has it been more hotly debated than in Japan where controversial education reforms over the past twenty years have attempted to reconcile the two goals In this book Peter Cave explores these reforms as they have played out at the junior high level the most intense pressure point in the Japanese system a time when students prepare for the high school entrance exams that will largely determine their educational trajectories and future livelihoods Cave examines the implementation of relaxed education reforms that attempted to promote individual autonomy and free thinking in Japanese classrooms As he shows however these policies were eventually transformed by educators and school administrators into curricula and approaches that actually promoted social integration over individuality an effect opposite to the reforms intended purpose With vivid detail he offers the voices of teachers students and parents to show what happens when national education policies run up against long held beliefs and practices and what their complex and conflicted interactions say about the production of self and community in education The result is a fascinating analysis of a turbulent era in Japanese education that offers lessons for educational practitioners in any country **Roadblocks on the Information Highway**

Jane Bachnik,2003-01-01 Although Japanese universities have relied on information technology to resolve numerous problems their high expectations are undermined by lags in implementing that technology This innovative edited volume argues that lags in IT implementation in Japanese education are created by contradictory and challenging responses of the social environment If this dialectic can be visualized as having hands the right avidly promotes IT while the left hand simultaneously blocks it The result of course is an impasse The issues central to this stalemate are significant because they point beyond the schools to a broader set of problem areas in Japanese society The contributors to Roadblocks on the

Information Highway discover and discuss the contradictions inherent in Japanese society and culture as they are played out in the social contexts of IT service providers web masters and classroom teachers who implement IT They then show how these contradictions indicate broader structural problems that pervade the dynamic between Japanese education and the state and business sectors Ultimately in a reach that goes beyond Japan this book examines relationships between technology and society persuasively convincing readers that the modern age has created an inextricable link between the two

Teaching Modern Foreign Languages Carol Morgan, Peter Neil, 2014-07-10 Designed for all trainee and newly qualified teachers teacher trainers and mentors this volume provides a contemporary handbook for the teaching of modern foreign languages covering Key Stages 2 3 and 4 in line with current DfEE and TTA guidelines Challenging Leadership

Stereotypes Through Discourse Cornelia Ilie, Stephanie Schnurr, 2017-08-31 This multidisciplinary volume brings together wide ranging empirical research that goes behind the scenes of diverse organizations dealing with business politics law media education and sports to unravel stereotypes of discursive leadership practices as they unfold in situ It includes contributions that explore how leadership discourse is impacted by increasing pressures of globalization the need to communicate across cultures and languages mediatization leaving ubiquitous digital traces standardization with quality management programmes negotiating organizational procedures mobility endless fast paced long distance synchronization and acceleration permanent co adaption and change The discussion of purposefully chosen case studies moves beyond questions of who is a leader and what leaders do to how leadership stereotypes are being challenged in various communities of practice and thereby making change possible Cross cultural and interdisciplinary approaches are used to get deeper insights into the competing multi voiced controversial and complex identities and relationships enacted in leadership discourse practices

New Frontiers in Artificial Intelligence Manabu Okumura, Daisuke Bekki, Ken Satoh, 2012-08-10 This book constitutes the thoroughly refereed post proceedings of four workshops held as satellite events of the JSAI International Symposia on Artificial Intelligence 2011 in Takamatsu Japan in December 2011 The 25 revised full papers presented were carefully reviewed and selected from numerous papers The papers are organized in four sections according to the four workshops Logic and Engineering of Natural Language Semantics LENLS Juris Informatics JURISIN Algorithms for Large Scale Information Processing in Knowledge Discovery ALSIP and Multimodality in Multispace Interaction MiMI

Gender, Language and Culture Lidia Tanaka, 2004-01-01 This book analyzes the relationship between gender age and role in Japanese television interviews It covers a wide range of topics on Japanese communication cultural and gender variables are interwoven in the interpretation of the findings The study shows how participants interact through language and how they project their identities in the context of the interview Based on a qualitative analysis speech in mixed and same gender interactions is analysed turntaking terms of address and aizuchi listener s responses are examined The findings reveal interesting characteristics of all female interactions such as the influence of age that appears to be more important

than gender an observation that has repercussions in the study of gender and language differences in modern Japan This book is an interdisciplinary study that integrates notions of politeness and theories of gender and language and will be of interest to people researching Japanese culture and communication gender studies and institutional language

Socializing Identities Through Speech Style Haruko Minegishi Cook,2008 Drawing on the perspective of language socialization and a theory of indexicality this book examines dinnertime talk in a homestay context and explores ways in which learners of Japanese as a foreign language and their Japanese host families socialize their identities through speech style

Emerging Lesbian Voices from Japan Sharon Chalmers,2003-08-29 Lesbian Sexuality has remained largely ignored in Japan despite increasing exposure of disadvantaged minority groups including gay men This book is the first comprehensive academic exploration of contemporary lesbian sexuality in Japanese society The author employs an interdisciplinary approach and this book will be of great value to those working or interested in the areas of Japanese lesbian and gender studies as well as Japanese history anthropology and cultural studies

Political Psychology S. Renshon,J. Duckitt,2000-05-09 Relationships of culture and political psychology shape a wide range of important contemporary political issues The distinguished contributors to this book make use of diverse theories of psychology informed by a broadly comparable understanding of the nature of culture The book is an important landmark in developing the field of political psychology developing insights from psychological anthropologists political scientists and crosscultural psychologists Critical contemporary social political and cultural issues of ethnic and crosscultural conflict around the world are crying out for theories making use of the powerful lens of culture along with other refractory frameworks

Humor, Identity, and Belonging Stephen J. Moody,2024-04-22 This book presents an ethnographic perspective on the intersection of humor identity and belonging Based on recorded interactions between Americans and Japanese it explores how beliefs and stereotypes surrounding gaijin foreigner identities create various types of humor such as mockery sarcasm and conversational jokes Through this analysis the study also discusses how identity focused humor impacts participants

understandings of interculturality and social belonging In particular it argues that while being an outsider can be marginalizing humor allows cultural differences to become a basis for developing inclusion and social unity in part through the recognition of shared norms and values *Japanese Civilization* S. N. Eisenstadt,1996 One of the world s leading social theorists provides a monumental synthesis of Japanese history religion culture and social organization Equipped with a thorough command of the subject S N Eisenstadt focuses on the non ideological character of Japanese civilization as well as its infinite capacity to recreate community through an ongoing past **Investigating Pragmatics in Foreign Language Learning, Teaching and Testing** Eva Alcón Soler,Alicia Martínez-Flor,2008-07-18 The book focuses on investigating pragmatic learning teaching and testing in foreign language contexts The volume brings together research that investigates these three areas in different formal language learning settings The number and variety of languages involved both as the first language e g English Finnish Iranian Spanish Japanese as well as the target foreign language e g English French German Indonesian Korean Spanish makes the volume specially attractive for language educators in different sociocultural foreign language contexts Additionally the different approaches adopted by the researchers participating in this volume such as information processing sociocultural language socialization computer mediated or conversation analysis should be of interest to graduate students and researchers working in the area of second language acquisition
