**Reading the World** Dianne C. Luce, 2009. In *Reading the World*, Dianne C. Luce explores the historical and philosophical contexts of Cormac McCarthy's early works crafted during his Tennessee period from 1959 to 1979 to demonstrate how McCarthy integrates literary realism with the imagery and myths of Platonic, gnostic, and existentialist philosophies to create his unique vision of the world. Luce begins with a substantial treatment of the east Tennessee context from which McCarthy's fiction emerges, sketching an Appalachian culture and environment in flux. Against this backdrop, Luce examines novel by novel McCarthy's distinctive rendering of character through mixed narrative techniques of flashbacks, shifts in vantage point, and dream sequences. Luce shows how McCarthy's fragmented narration and lyrical style combine to create a rich portrayal of the philosophical and religious elements at play in human consciousness as it confronts a world rife with isolation and violence.
