Critical Perspectives on Social Control and Social Regulation in Canada Mitch Daschuk, 2020-08-25T00:00:00Z How does social regulation shape who is deviant and who is normal Critical Perspectives on Social Control and Social Regulation in Canada is an introduction to the sociology of what has traditionally been called deviance and conformity This book shifts the focus from individuals labelled deviant to the political and economic processes that shape marginalization power and exclusion Class gender race and sexuality are the bases for understanding deviance and it is within these relations of power that the labels deviant and normal are socially developed and the behaviours of those less powerful become regulated This textbook introduces readers to theories and critiques of traditional approaches to deviance and conformity Using vivid and timely examples of contemporary social regulation and control this textbook brings to life how forces of social control and marginalization interact with social media sex work immigration anti colonialism digital surveillance and social movements and much more Theories and critiques are clarified with summaries definitions rich illustrative examples discussion questions recommended resources and test banks for instructors **A Sociology of Crime** Peter Eglin, Stephen Hester, 2015-09-04 The authors take three particular sociological perspectives and use them to offer a distinct and critical reading of criminology highlighting the ways that crime is first and foremost a matter of social definition They provide a good introductory text which will be of great value to students **Radical and Marxist Theories of Crime** Paul B. Stretesky, 2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control *Discover Sociology* Daina S. Eglitis, William J. Chambliss, Susan L. Wortmann, 2021-07-04 What key social forces construct and transform our lives as individuals and as members of society How does our social world shape us How do we shape our world Discover Sociology answers these questions as it explores sociology as a discipline of curious and scientific minds The text is structured around several themes particularly the unequal

distribution of power and authority in all aspects of social life Going beyond theory and concepts the authors also demonstrate how studying sociology produces more engaged citizens and opens up a diversity of career paths This title is accompanied by a complete teaching and learning package

The Labeling of Sex Offenders Sean Maddan,2008 The Labeling of Sex Offenders contributes to the research on the effects of sex offender registration and notification policies using the labeling perspective The labeling perspective asserts that offenders who are labeled are more likely to re offend this is counter to sex offender registration policies which assume that knowing the identity and whereabouts of sex offenders is imperative to the public s ability to protect itself This research used criminal data from the State of Arkansas within the framework of a quasi experimental design to evaluate the recidivism of the first three waves of sex offenders registered 1997 1999 vs a comparison group of sex offenders from a decade earlier 1978 1989 Key variables used to explain specific and general recidivism included the application of an active label prior exposure to formal and informal labels the intensity of the label race sex and age The findings presented by Madden indicate that there is no statistically significant difference between the two groups of sex offenders in terms of recidivism
