Social Work Practice Problem Solving And Beyond:

Social Work Practice Tuula Heinonen, Leonard B. Spearman, 2001 *Social Work Practice Problem Solving and Beyond* breaks new ground in the field of social work. Starting with a history of the emergence of social work in Canada, this social work practice text presents a view of social work that incorporates not without criticism problem solving as foundational to traditional practice but also a conception of practice that takes us beyond. The authors argue that there are newer approaches that both critique and enrich generalist social work practice. Strengths, Aboriginal, structural, and feminist approaches need to be incorporated into generalist social work practice. This text was written using perspectives relevant to modern social work practice in North America. It examines policy and relates it specifically to social work practice. A full chapter is devoted to cultural diversity and awareness in social work. Further, all of the approaches in the book are presented as culturally sensitive. *Social Work Practice Problem Solving and Beyond* while drawing upon both Canadian and American content emphasizes Canadian social work experience and developments. The Canadian experience often without fanfare has greatly enriched social work practice. The authors have formulated a model of generalist social work practice that they believe can work in other societies with comparable social work education, social welfare, and social policy environments. The authors seek to expand students' exposure to a broad set of approaches and principles of social work within the generalist context. By doing so, they overcome the temptation to limit students' understandings of social work to constricted practice and knowledge areas that apply only to specific populations of social work clients.

Social Work Practice Tuula Heinonen, Leonard B. Spearman, 2009-09-15 *Social Work Practice Problem Solving and Beyond* presents a view of social work that incorporates not without criticism problem solving as foundational to traditional practice. While drawing upon international and American content, the text emphasizes Canadian social work experience and developments. Tuula Heinonen and Len Spearman also argue that there are newer approaches that both critique and enrich generalist social work practice. Strengths, Aboriginal, structural, and feminist approaches need to be incorporated into generalist social work practice. The goal of *Social Work Practice Problem Solving and Beyond* is to expand students' exposure to a broad set of approaches and principles of social work within the generalist context. *Social Work Practice, [ECH Master]* Tuula Heinonen, 2008

Indigenous Social Work around the World John Coates, 2016-05-23 How can mainstream Western social work learn from and in turn help advance indigenous practice? This volume brings together prominent international scholars involved in both Western and indigenous social work across the globe, including James Midgley, Linda Briskman, Alean Al Krenawi, and John R. Graham, to discuss some of the most significant global trends and issues relating to indigenous and cross-cultural social work. The contributors identify ways in which indigenization is shaping professional social work practice and education and examine how social work can better address diversity in international exchanges and cross-cultural issues within and between countries. Key theoretical, methodological, and service issues and challenges in the indigenization of social work are

reviewed including the way in which adaptation can lead to more effective practices within indigenous communities and emerging economies and how adaptation can provide greater insight into cross cultural understanding and practice

Social Work and the Environment Michael Kim Zapf, 2009 This ground breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions and offers a new and attractive foundational metaphor for social work The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility identity and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century Why is that a profession with a declared focus on person in environment has been so silent on the environmental crisis Mainstream social work theory has narrowed the understanding of environment to include merely the social environment but this approach is no longer sufficient for participation in multi disciplinary efforts to tackle urgent environmental issues Transformative notions of responsibility identity and stewardship have been developed on the fringes of our professional community rural remote social workers Aboriginal social workers and international and spiritual social workers They must now move to the core of the profession

101 Social Work Clinical Techniques Francis J. Turner, William Rowe, 2013-05-08 The purpose of the book is to enhance the concept of Technique in the teaching and practice of Social Work Over the years Technique has not been stressed as a part of practice even though the actual practice of Social Work consists of the utilization of techniques in addition to theory and the process of assessment and diagnosis The book seeks to achieve its goal in four ways It addresses the way the concept of Technique has or has not been used over the years It addresses the need for a clear definition of technique It analysis the qualities that Technique should have at this point in our history of clinical practice It then formulates and presents a definition of technique for our thesis based on this definition It then presents a brief discussion of 101 Techniques discussed in contemporary literature by discussing each one s place in practice a bit about its history and necessary knowledge skills to use responsibly It addresses the latter by grouping a level of risk involved in its utilization

Beyond Multiculturalism in Social Work Practice Kui-Hee Song, 2004 Drawn from experience this in depth case study presents an integrated approach to social work practice with culturally linguistically diverse clients to show how theories of postmodernism and multiculturalism can be applied when working with Korean immigrant families

Social Work Practice Education Beyond the Pandemic Riccardo Guidi, Christian Spatscheck, 2024-10-22 This book offers unprecedented knowledge about how social work practice education has been restructured under the challenges of the COVID 19 pandemic and how the adaptations and innovations generated during this time have become a supplementary tool of current social work education worldwide. Based on the European research project SWooPEd (Social Work Practice Education in Times of Pandemics and Beyond Continuities Changes and Innovations in Europe), this contributed volume provides a unique international perspective from different European countries that are accomplished through insights from authors in other continents. The book addresses topics through a global approach using a comparative perspective and a multi-method design. It adopts the IASSW/IFSW Global Standards for Social Work Education and Training as well as considers the heterogeneity of national social work education systems in Europe, North America, Africa, and the Asia and Pacific region. The volume's contents are organized in three sections. In Part I, the authors compare the structures and designs of social work practice education programs and the reactions of the schools of social work to the COVID 19 related restrictive measures on a European level. In Part II, the authors provide in-depth analyses on how the pandemic experimentations have been re-adapted and used in some European countries and which innovations and findings were identified that could be integrated now and in the context of other crises. In Part III, the authors contextualize these experiences and display the paths and analyses from schools in non-European countries as well as finally identify the crucial current challenges and opportunities for social work practice education at a global level. Social Work Practice Education Beyond the Pandemic is a key reference for the global community of social work education including academics, educators, field instructors, practitioners, and students. It provides an inspiring source for all the innovators in the field of higher education in social work and highlights how social work practice education can be designed in a more resilient and sustainable way that directs social work practice education into the future
