## **Social And Economic Statistics For Africa Their Sources Collection Uses:**

Social and Economic Statistics for Africa G.M.C. Kpedekpo,P.L. Arya,2024-07-12 Originally published in 1981 this book deals with the general nature of social and economic statistics their sources collection use and reliability with an emphasis on Africa and source material available in Africa which deals with Africa The authors look in depth at specific topics such as population crime health housing labour social security agriculture external trade and national accounts Particular attention has been paid to the role played by Western concepts and definitions analysis and interpretation of African statistics and the problems to which these concepts give rise Explanation on how to interpret critically statistics collected by others and those which are published and used to guide decision making by governments and private organisations alike is given Undergraduate students taking courses in statistics and quantitative methods in Social Science Faculties through Africa will find this book useful as well as students of education agriculture and medicine in their introductory statistics courses

**Social and Economic Statistics for Africa** G. M. K. Kpedekpo,P. L. Arya,1981 Textbook describing statistical sources data collecting and data analysis methodologys for social indicators and economic indicators in Africa covers uses limitations comparison reliability etc In relation to population health education housing and work statistics etc Bibliography after each chapter

**The Palgrave Handbook of African Political Economy** Samuel Ojo Oloruntoba,Toyin Falola,2020-06-23 This handbook constitutes a specialist single compendium that analyses African political economy in its theoretical historical and policy dimensions It emphasizes the uniqueness of African political economy within a global capitalist system that is ever changing and complex Chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent Contributors also provoke new thinking on theories and policies to better position the continent s economy to be a critical global force The uniqueness of the handbook lies in linking theory and praxis with the past future and various dimensions of the political economy of Africa

**Statistical Tragedy in Africa?** Morten Jerven,Deborah Johnston,2017-10-02 What do we know about economic development in Africa The answer is that we know much less than we would like to think This collection assesses the knowledge problem present in statistics on poverty agriculture labour education health and economic growth While diverse in origin the contributors to this book are unified in two conclusions the quality and quantity of data needs to be improved and this is a concern not just for statisticians Weaknesses in statistical methodology and practice can misinform policy makers international agencies donors the private sector and the citizens of African countries themselves This is also a problem for academics from various disciplines from history and economics to social epidemiology and education policy Not only does academic work on Africa regularly use flawed data but many problems encountered in surveys challenge common academic abstractions By exploring these flaws this book will provide a guide for scholars policy makers and all those using and commissioning surveys in Africa This book was originally published as a special issue of The Journal of Development Studies *Economic Growth and Measurement*

*Reconsidered in Botswana, Kenya, Tanzania, and Zambia, 1965-1995* Morten Jerven, 2014-03-27 How do we measure African economic performance This volume studies how growth is measured in Botswana Kenya Tanzania and Zambia and challenges commonly held beliefs of African economic performance The volume offers a reconsideration of economic growth in Africa in three respects First it shows that the focus has been on average economic growth and that there has been no failure of economic growth In particular the gains made in the 1960s and 1970s have been neglected Second it emphasizes that for many countries the decline in economic growth in the 1980s was overstated as was the improvement in economic growth in the 1990s The coverage of economic activities in GDP measures is incomplete In the 1980s many economic activities were increasingly missed in the official records thus the decline in the 1980s was overestimated resulting from declining coverage and the increase in the 1990s was overestimated resulting from increasing coverage The third important reconsideration is that there is no clear association between economic growth and orthodox economic policies This is counter to the mainstream interpretation and suggests that the importance of sound economic policies has been overstated and that the importance of the external economic conditions have been understated in the prevailing explanation of African economic performance

**Africa Rising?** Ian Taylor, 2014 Africa is said to be rising turning a definitive page in its history heralding new and exciting possibilities for the continent This discourse maintains that with upsurge in economic growth comes improved governance and endogenous dynamics that the emerging economies and especially the BRICS Brazil Russia India China South Africa have been instrumental in diversifying Africa's international relations perhaps leading to a radical change in the global order favourable to the developing world But to what extent is this true and how deep and how broad has been the impact on society at large This book takes a critical look at the prevalent Africa Rising discourse and explores the nature and implications of Africa's rise and the role that the BRICS have played in it The author argues that Africa has still to undergo any structural transformation that there is strong evidence that deindustrialisation and jobless growth have accompanied the upsurge of interest in the continent and that far from making a radical turn in its developmental trajectory Africa is being pushed into the resource corner as commodity exporters to the North and now the BRICS with little scope for industrial progress or skills advancement Hope that the BRICS might offer an alternative to the extant neoliberal order are misplaced for the BRICS have a stake in maintaining the current global inequality Africa must therefore fashion its own independent path while the emerging economies will be important relying on external actors may simply reproduce anew the current state of underdevelopment Ian Taylor is Professor in International Relations and African Politics University of St Andrews Chair Professor Renmin University of China Professor Extraordinary University of Stellenbosch South Africa Honorary Professor Institute of African Studies Zhejiang Normal University China and a Visiting Scholar at Mbarara University of Science and Technology Uganda

**Reconfiguration of the Global South** Eckart Woertz, 2016-10-04 Since the 1980s there has been a steady shift from West to East in the international system economically politically and culturally

Emerging markets in Asia have moved up the value chain of industrial production processes while the share of Western industrialized countries in global gross domestic product has declined. Countries such as China and India are asserting themselves in security matters and seeking new avenues for investment flows and development co-operation. China is expected to shift from export-led growth to domestic consumption, which might further change patterns of trade and capital flows, and it is an open debate whether the growth dynamics of India might outstrip those of China. While the rise of China and other Asian powers has been studied extensively, much less work has been done on how Africa and Latin America position themselves in this process. What will be the role of Africa and Latin America in the Asian Century and associated reconfigurations of global value chains? Will these regions be able to assert themselves and find a voice of their own? Will they manage to develop industries of their own and diversify trade relations? Will they launch new ways of regional south-south co-operation? What is the role of migrant communities and cultural exchange? Do Western and Asian approaches to these regions differ? Washington vs Beijing consensus. This book brings together renowned academics from Africa, Latin America, Europe and the USA who bring refreshing perspectives on an under-researched topic, ranging from a conceptualization of the issue within new theoretical approaches to unique case studies based on field work.

**The Routledge Handbook of African Demography** Clifford O. Odimegwu, Yemi Adewoyin, 2022-02-07. This handbook provides an authoritative and comprehensive overview of African population dynamics, variations, causes and consequences, demonstrating the real-world applications of research in policies and programmes. African demography has come of age. Over 50 years, the discipline has grown exponentially in the number of training and research institutions, specialist experts and academic output, all with an aim of addressing the enormous demographic challenges faced by the continent. The book draws on old and emerging analytical tools to explore the relationships between population dynamics and social, economic, cultural and political environments from African perspectives. Key topics include fertility, sexual behaviours, healthcare, ageing, mortality, migration, displacement, the causes and consequences of demographic changes and teaching and research developments in African demography. The Routledge Handbook of African Demography will be an essential resource for students and researchers of African demography, sociology, development and cultural studies.

Textiles in Africa Arnold Werbeloff, 1987. Land Tenure, Agricultural Economics and Rural Development University of Wisconsin--Madison. Land Tenure Center. Library, 1987.

*Newsletter*, 1978. **News Letter** United States. Department of State, 1978. **Down to Earth** National Research Council, Division on Earth and Life Studies, Board on Earth Sciences and Resources, Mapping Science Committee, Committee on Geography, Committee on the Geographic Foundation for Agenda 21, 2002-11-24. In 1992, world leaders adopted Agenda 21, the work program of the 1992 U.N. Conference on Environment and Development. This landmark event provided a political foundation and action items to facilitate the global transition toward sustainable development. The international community marked the tenth anniversary of this conference in Johannesburg, South Africa, in August 2002. Down to Earth, a component of

the U S State Department s Geographic Information for Sustainable Development project for the World Summit focuses on sub Saharan Africa with examples drawn from case study regions where the U S Agency for International Development and other agencies have broad experience Although African countries are the geographic focus of the study the report has broader applicability Down to Earth summarizes the importance and applicability of geographic data for sustainable development and draws on experiences in African countries to examine how future sources and applications of geographic data could provide reliable support to decision makers as they work towards sustainable development The committee emphasizes the potential of new technologies such as satellite remote sensing systems and geographic information systems that have revolutionized data collection and analysis over the last decade

**Bulletin of the United States Bureau of Labor Statistics ,1990      Business and Government Relations in Africa** Robert A. Dibie,2017-07-06 This book endeavors to take the conceptualization of the relationship between business government and development in African countries to a new level In the twenty first century the interests and operations of government and business inevitably intersect all over the African continent No government federal or state can afford to ignore the needs of business But what are these needs how does business express its needs to government and what institutions organize government business relations in African countries How should government regulate business or should it choose to let the markets rule Government and Business Relations in Africa brings together many of sub Saharan African leading scholars to address these critical questions Business and Government Relations in Africa examines the key players in the game federal and state governments and business groups and the processes that govern the relationships between them It looks at the regulatory regimes that have an impact on business and provides a number of case studies of the relationships between government and economic development around the African continent highlighting different processes and practices It shows the latest state of knowledge on the topic and will be of interest both to students at an advanced level academics and reflective practitioners It addresses the topics with regard to business government relations and will be of interest to researchers academics policymakers and students in the fields of African politics comparative politics public policy business and politics sustainable development and sustainability economic development and managerial economics
