### **Social Interaction And Organisational Change, Aston Perspectives On Innovation Networks** Steve

Conway, Oswald Jones, Fred Steward, 2001-04-01 This book provides a detailed multi disciplinary analysis of innovation networks in a variety of organisational settings All the contributors are employed at Aston Business School which is one of the UK s foremost institutions in terms of both teaching and research The book illustrates the way in which innovation networks are formed and sustained in a variety of organisational settings the public sector public private collaboration national policy level inter organisational credit links as well as the more traditional focus on manufacturing firms The strength of the network approach is that it encourages detailed analyses of the dyadic links which must be mobilised in the innovation process At the same time networks provide a framework for exploring the multiple sources and pluralistic patterns of communication typical of innovatory activity Therefore in contrast to much of the innovation network research undertaken in recent years the focus of this book is as much on notions of network as method as on network as phenomenon

**R&d Strategy & Organisation: Managing Technical Change In Dynamic Contexts** Vittorio Chiesa, 2001-03-09 This book deals with key issues and trade offs in R D strategy and organisation paying attention especially to dynamic competitive contexts where technology plays a key role These topics are treated from the perspective of the decision taker i e the manager who makes decisions in terms of R D strategy and organisation The book addresses typical problems of large firms having structured R D and operating businesses where R D is a source of competitive advantages Although it focuses strongly on R D it sees R D as a part a key part of the process of technological innovation and therefore as an activity to be strongly and appropriately integrated with other functions to make innovation successful This book is primarily conceived as an academic review of research topics Therefore the main audience is composed of scholars researchers and PhD students However the book can be useful for postgraduate students taking MBA electives or students attending courses on technology management It is also relevant to R D managers and more generally people responsible for units concerned with technological innovation

**Knowledge Networks and Craft Traditions in the Ancient World** Katharina Rebay-Salisbury, Ann Brysbaert, Lin Foxhall, 2014-08-07 This edited volume investigates knowledge networks based on materials and associated technologies in Prehistoric Europe and the Classical Mediterranean It emphasises the significance of material objects to the construction maintenance and collapse of networks of various forms which are central to explanations of cultural contact and change Focusing on the materiality of objects and on the way in which materials are used adds a multidimensional quality to networks The properties functions and styles of different materials are intrinsically linked to the way in which knowledge flows and technologies are transmitted Transmission of technologies from one craft to another is one of the main drivers of innovation whilst sharing knowledge is enabled and limited by the extent of associated social networks in place Archaeological research has often been limited to studying objects made of one particular material in depth be it lithic materials ceramics textiles glass metal wood or others

The knowledge flow and transfer between crafts that deal with different materials have often been overlooked This book takes a fresh approach to the reconstruction of knowledge networks by integrating two or more craft traditions in each of its chapters The authors well known experts and early career researchers provide concise case studies that cover a wide range of materials The scope of the book extends from networks of craft traditions to implications for society in a wider sense materials objects and the technologies used to make and distribute them are interwoven with social meaning People make objects but objects make people the materiality of objects shapes our understanding of the world and our place within it In this book objects are treated as clues to social networks of different sorts that can be contrasted and compared both spatially and diachronically
