Social Patterns In Normal Aging:

Social Patterns in Normal Aging Erdman Ballagh Palmore, 1981 Erdman Palmore has written a comprehensive systematic summary of all extant findings on social patterns in normal aging learned from the landmark Duke Longitudinal Studies in aging Palmore discusses the implications of these findings for major issues in gerontology and answers such questions as Do elderly people reduce their social activity Do they come to resemble one another or become more different as they age Do major events in later life produce stress resulting in physical and or mental illnesses Does sexual activity maintain or reduce life satisfaction and longevity Palmore's conclusions challenge many current ideas and prejudices widely held about people over the age of 65 *Normal Aging III* Duke University, 1985 Since they began in 1955 the Duke Longitudinal Studies have been regarded as landmark investigations amassing invaluable data on the typical physical changes that accompany aging typical patterns of mental health and mental illness psychological aging and the normal social roles self concepts satisfactions and adjustments to retirement of the aged Comprising information on more than 750 aged and middle aged persons these studies have contributed enormously to our ability to distinguish normal and inevitable processes of aging from those that may accompany aging because of accident stress maladjustment or disuse *The Encyclopedia of Aging* Richard Schulz, 2006 Print CourseSmart *The Self and Society in Aging Processes* Carol D. Ryff, PhD, Victor W. Marshall, PhD, 1999-06-23 This volume focuses on the experience of growing old as it is linked to societal factors Ryff and Marshall construct this macro view of aging in society by bridging disciplines and bringing together contributors from all the social sciences The book is organized into three sections theoretical perspectives socioeconomic structures and contexts of self and society Leading psychologists anthropologists gerontologists and sociologists present theoretical and empirical advances that forge links between the individual and the social aspects of aging It is must reading for researchers in all gerontologic specialties and a valuable text for graduate courses in human development psychology of aging and other social aspects of aging **The Encyclopedia of Aging** Linda S. Noelker, PhD, Kenneth Rockwood, MD, FRCPC, Richard L. Sprott, Ph.D., 2006-03-17 A COMPREHENSIVE RESOURCE ON GERONTOLOGY AND GERIATRICS Since its inception in 1987 The Encyclopedia of Aging has proven to be the definitive resource for scholars and students across the burgeoning and increasingly interdisciplinary fields of gerontology and geriatrics Like its three esteemed predecessors the fourth edition contains concise readable explorations of hundreds of terms concepts and issues related to the lives of older adults as well as timely coverage of the many new programs and services for the elderly Updated under the distinguished stewardship of editor in chief Richard Schulz to reflect the infusion of new information across the scientific disciplines this new edition brings readers up to the moment significant advances in biology physiology genetics medicine psychology nursing social services sociology economics technology and political science While retaining the format and standard of excellence that marked the first three editions the fourth edition encompasses a wealth of new information from the social and health

sciences It contains the most current bibliography of an expanding literature an exhaustive index and extensive cross references This much anticipated update of the field s most authoritative resource will take its place as an indispensable reference for specialists and non specialists across a broad range of disciplines that now comprise the field of aging

Costa, I.C. Siegler, 2003-12-10

Recent Events in the Psychology of Aging documents the successful integration of aging into the mainstream of psychology Leading psychologists present overviews of the key issues and research findings on mainstream topics These include cognitive neuroscience visual attention learning memory and cognition as well as personality and happiness The intersection of aging content with mainstream psychology is also prominent in the areas of emotions personality and social psychology as seen in the chapters on subjective well being emotional development self esteem and personality trajectories The seven chapters of this book offer information on such topics as the seven sins of memory categorizing the common breakdowns of memory in everyday life and the special breakdown of sins that increase with aging problems with attention and learning and offers answers to questions such as do emotions get blunted with age do older people focus more on positive feelings and the age old question of whether older people are happier than younger people is given in the chapter on the evolving concept of subjective well being and the multifaceted nature of happiness Questions about what occurs to one s self esteem and personality are also masterfully discussed and the answers may be surprising The concluding seventh chapter provides a cultural lens on the biopsychosocial study of aging **Communication and Aging** Jon F. Nussbaum, Loretta L.

Pecchioni, James D. Robinson, Teresa L. Thompson, 2013-05-13 This text employs a communication perspective to examine the

aging process and the ability of individuals to adapt successfully to aging It continues the groundbreaking work of the first edition emphasizing a life span approach toward understanding the social interaction that occurs during later life The edition provides a comprehensive update on the existing and emerging research within communication and aging studies and considers such topics as notions of successful aging positive and negative stereotypes toward older adults and health communication issues It raises awareness of the barriers facing elderly people in conversation and the importance such conversations have in elderly people s lives The impact of nonrelational processes such as hearing loss are considered as they impact relationships with others and affect the ability to age successfully The book is organized into 14 chapters Each chapter is written so that the reader is presented with an exhaustive review of the pertinent and recent literature from the social sciences As in the first edition when the literature is empirically based the communicative ramifications are then discussed Readers of this volume will gain greater understanding of the importance of their communicative relationships and how significant they remain across the life span Developed for students in communication psychology nursing social gerontology sociology and related areas Communication and Aging provides important insights on communication to all who are affected by the aging process **Behavioral Sciences Research in Mental Health** ,1983 *Social Patterns in Normal Aging: Findings from the Duke Longitudinal Study* Rosemary Blieszner,1983 **Annual Review of Gerontology and Geriatrics, Volume 17, 1997** K. Warner Schaie, PhD,1997-11-10 In this timely volume prestigious contributors incorporate new knowledge from general psychology into a more comprehensive and accessible view of emotion in adult development and aging The first chapter sets the stage by providing an overview of emotion across the entire life span Subsequent chapters examine and consider thought provoking themes including how feelings are used in interpersonal communication across the years of adulthood the linkage between stressful life events and the occurrence of disease and the changes in emotional intensity and emotional understanding as we age This volume is essential for general psychologists gerontologists researchers and geriatric practitioners desiring to better their understanding of their older patients and clients For Further Information Please Click Here **Normal Aging II** Duke University.
