Social Provision In Low Income Countries New Patterns And Emerging Trends:

Social Provision in Low-income Countries Germano Mwabu,Cecilia Ugaz,Gordon White,UNU / WIDER,2001

Social Provision in Low-income Countries World Institute for Development Economics Research,2001 During recent years provision of key social services in low income countries has been affected by adverse macroeconomic conditions and by radical changes in economic thinking For example the welfarist approach which gives prominence to the state in delivering and financing social services has been challenged by the neoliberal approach which limits the role of the government to that of residual provider for the very poor According to the neoliberal approach the private sector could by relying on price mechanisms achieve more efficient provision However this approach relies on a rather narrow definition of efficiency which ignores social externalities in the delivery and use of services Social Provision in Low Income Countries analyses the merits and limitations of both welfarist and neoliberal approaches to the provision of key social services in terms of the outcomes and sustainability of the two approaches The volume proposes an alternative model of social provision characterized by multiplicity in service delivery and financing The new model in which households civil society and government play important roles avoids the inefficiencies of state provision and the exclusion and fragmentation of market based systems The authors argue for an integrative approach which encourages the equity and efficiency gained from a synergistic relationship between various service providers They further argue that the well known market and government failures in social provision are due to undesirable extremes in policy design rather than to inherent characteristics of market or government institutions The strengths of this new approach are illustrated with case studies from Chile China Tanzania and Zimbabwe The volume also describes how social services in Finland were organized in the early stages and draws policy lessons for present day developing countries

mechanisms and cross cultural issues it includes both local level and international examples **Social Protection for Older Persons** Sri Wening Handayani,Babken Babajanian,2012-07-01 The rising number of older persons in Asia has accentuated the importance of strengthening the systems of social protection in the region This book examines the effectiveness and relevance of noncontributory or social pensions in supporting older persons in Asia It discusses the political economy and financial sustainability of social pension reform implications for gender equity and social rights and design and implementation challenges Case studies from Bangladesh Nepal Thailand Viet Nam and South Caucasus and Central Asia provide key lessons for informing development policy and practice in Asia and the Pacific *Financing Social Policy* Katja Hujo,Shea McClanahan,2009-10-09 Moving beyond the post Washington consensus this book shifts the focus of development policy debates away from expenditures and austerity and towards revenues and resources The book explores the potential and the developmental impact of different categories of resources for financing social policy in a development context

Eliminating Human Poverty Santosh Mehrotra,Enrique Delamonica,2013-07-04 This book focuses on the provision of basic social services in particular access to education health and water supplies as the central building blocks of any human development strategy The authors concentrate on how these basic social services can be financed and delivered more effectively to achieve the internationally agreed Millennium Development Goals Their analysis which departs from the dominant macro economic paradigm deploys the results of broad ranging research they led at UNICEF and UNDP investigating the record on basic social services of some 30 developing countries In seeking to learn from these new data they develop an analytical argument around two potential synergies at the macro level between poverty reduction human development and economic growth and at the micro level between interventions to provide basic social services Policymakers they argue can integrate macro economic and social policy Fiscal monetary and other macro economic policies can be compatible with social sector requirements They make the case that policymakers have more flexibility than is usually presented by orthodox writers and international financial institutions and that if policymakers engaged in alternative macro economic and growth oriented policies this could lead to the expansion of human capabilities and the fulfillment of human rights This book explores some of these policy options The book also argues that more than just additional aid is needed Specific strategic shifts in the areas of aid policy decentralized governance health and education policy and the private public mix in service provision are a prerequisite to achieve the goals of human development The combination of governance reforms and fiscal and macro economic policies outlined in this book can eliminate human poverty in the span of a generation

Nannekke Redclift,2017-08-16 Questions of public and private morality values and choices have become important areas of collective discussion A key feature of this book is that it takes an ethnographic rather than a philosophical or speculative approach to moral debates This study examines the contemporary explosion of ethical discourse in the public domain and the growing importance of moral rhetoric as an aspect of social relations **Rigged Rules and Double Standards** Kevin

Watkins,Penny Fowler,2002 A critical and detailed analysis of inequalities of world trade systems *Democratic Accountability and International Human Development* Kamran Ali Afzal,Mark Considine,2014-11-27 Scholars and policymakers have long known that there is a strong link between human development and spending on key areas such as education and health However many states still neglect these considerations in favour of competing priorities such as expanding their armies This book examines how states arrive at these decisions analysing how democratic accountability influences public spending and impacts on human development The book shows how the broader paradigm of democratic accountability extending beyond political democracy to also include bureaucratic and judicial institutions as well as taxation and other modes of resource mobilisation can best explain how states allocate public resources for human development Combining cross country regression analysis with exemplary case studies from Pakistan India Botswana and Argentina the book demonstrates that enhancing human capabilities requires not only effective party competition and fair elections but also a particular nesting of public organisational structures that are tied to taxpaying citizens in an undisturbed chain of accountability It draws out vital lessons for institutional design and our approach to the question of human development particularly in the less developed states This book will be of great interest to postgraduate students and researchers in the fields of political economy public policy governance and development It also provides valuable insights for those working in the international relations field including inside major aid and investment organisations **Policies for Happiness** Stefano

Bartolini,Ennio Bilancini,2016 This volume analyses the use of happiness studies for policy purposes and determines whether the current state of research permits the identification of possible goals for happiness policies American Book Publishing Record ,2001 User Charges and Utilization of Health Services in Kenya ,2004 **Handbook of Latin American and**
