## **Social Work In Canada An Introduction By Hick 2nd Edition:**

**Case Critical** Ben Carniol, 2005 A classic text in social work education Case Critical opens the door on Canada's social services from the perspective of social workers themselves and service users or cases people whose voices we rarely hear This completely revised and updated fifth edition includes new interviews and topics of discussion to reinforce Carniol's passionate case for social work as liberation practice *Anarchist Perspectives for Social Work* Alexander W. Sawatsky, 2024 This book seeks to rigorously and specifically engage with anarchist theory and find application to social work fields of practice and social work theory **Social Work in an International Perspective** Charlotte De Kock, Christian Van Kerckhove, Eva Vens, 2014-02-18 In this work academics and practitioners from all five continents highlight the history of the social work profession and its underlying academic and social paradigms The authors come from Australia Austria Brazil Belgium Canada Ghana Great Britain India New Zealand South Africa and the United States The structure of this work allows the reader to trace back the historical and political influences in the interpretation of social work in the authors' countries Special attention is given to the notions of human rights and social diversity Are human rights universal and which impact does this universality have on the social work profession How does categorical work relate to generalist practice and does this in its turn relate to the conception of diversity The authors approach these main queries in an exemplary and balanced manner using both theoretical analysis and case studies **Canadian Social Policy** Anne Westhues, 2006 What are the major issues confronting social policy makers today What theoretical perspectives shape our thinking about the causes of social problems and how we should respond What can we do to influence decision makers about which policy choice to make In this completely revised and updated edition of Canadian Social Policy a new generation of social policy analysts discusses these important questions Readers who are interested in discovering the current policy debates and who want to understand the policy making process at various levels of government as well as how they can influence the process and assess whether policies are working will find this book invaluable **Social Work and the Environment** Michael Kim Zapf, 2009 This ground breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions and offers a new and attractive foundational metaphor for social work The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility identity and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century Why is that a profession with a declared focus on person in environment has been so silent on the environmental crisis Mainstream social work theory has narrowed the understanding of environment to include merely the social environment but this approach is no longer sufficient for participation in multi disciplinary efforts to tackle urgent environmental issues Transformative notions of responsibility identity and stewardship have been developed on the fringes of our professional community rural remote social

workers Aboriginal social workers and international and spiritual social workers They must now move to the core of the profession **Walking This Path Together** Jeannine Carrière,2020-07-10T00:00:00Z **Walking This Path Together** is an edited collection devoted to improving the lives of children and families that come to the attention of child welfare authorities by demonstrating and advocating for socially just child welfare practices In this new updated edition authors provide special consideration to the historical and political context of child welfare in Canada and theoretical ideas and concrete practices that support practitioners educators and students who are looking for anti racist anti oppressive and anti colonial perspectives on child welfare practice **Doing Anti-Oppressive Practice, Third Edition** Donna

postwar Canada having a child out of wedlock invariably meant being subject to the adoption mandate Andrews describes the mandate as a process of interrelated institutional power systems which together with socio cultural norms ideals of gender heteronormativity and emerging sociological and psychoanalytic theories created historically unique conditions in the post WWII decades wherein the white unmarried mother was systematically separated from her baby by means of adoption This volume uncovers and substantiates evidence of the mandate ultimately finding that at least 350 000 unmarried mothers in Canada were impacted

in social work      Global Citizenship Education Eva Aboagye,S. Nombuso Dlamini,2021-03-01 The idea of citizenship and conceptions of what it means to be a good citizen have evolved over time On the one hand good citizenship entails the ability to live with others in diverse societies and to promote a common set of values of acceptance human rights and democracy On the other hand in order to compete in the global economy nations require a more innovative autonomous and reflective workforce meaning good citizens are also those who successfully participate in the economic development of themselves and their country These competing conceptions of good citizenship can result in people s participation in activities such as profit driven labor exploitation that contradict human rights and democratic tenants Thus global citizenship education is fundamental to teaching learning and redressing sociopolitical economic and environmental exploitation around the world Detailing the historical development of this field of study to achieve recognition Global Citizenship Education Challenges and Successes provides a critical discourse on global citizenship education GCE Authors in this collection discuss the underpinnings of global citizenship education via contemporary theories and methodologies as well as specific case studies that illustrate the application of GCE initiatives Editors Eva Aboagye and S Nombuso Dlamini aim to motivate learners and educators in post secondary institutions not only to understand the issues of social and economic inequality and political and civil unrest facing us but also to take action that will lead to equitable change in both local and global spaces      Doing Anti-Oppressive Social Work, 4th ed.
