## **Social Work In Context:**

**Social Work in a Global Context** George Palattiyil, Dina Sidhva, Mono Chakrabarti, 2015-08-20 Social Work in a Global Context engages with and critically explores key issues that inform social work practice around the world. Social work can take many forms and is differently understood in different parts of the world. However at base it can be seen as a profession which strives to advance the causes of the vulnerable and marginalised with the aim of promoting social justice, equality and human rights. This text provides examples of social work in a wide range of countries informing our understanding of what social work is. It looks at how practice changes or stays the same and at the impact of policy as experienced by service users as well as by practitioners working in challenging circumstances. It also meaningfully reflects on the strengths and challenges that are enabled by diversity. Divided into four parts, this wide ranging text discusses what social work means in four different countries, some examples of the impact social and political context can have on social work practice, how social workers see and work with the vulnerable, the future for social work from disaster work to involving service users. Social Work in a Global Context is the first truly international book for all those interested in comparative and cross cultural understandings of social work.

**Social Work: Contexts and Practice, 3e** Marie Connolly, Louise Harms, 2013-07-04 Social Work Contexts and Practice is a comprehensive introduction to the field of social work. The book is divided into three broad sections. Part 1 explores the context of practice and the broad ranging influences that shape the profession, particularly its vision and development. Part 2 then considers the diverse fields of practice in which social workers find employment, and Part 3 looks at the professional developments that both support and challenge social workers.

Social Work Marie Connolly, Louise Harms, Jane Maidment, 2017-10-16 Social Work Contexts and Practice is a practical introduction to contemporary issues in social work, providing the context of practice and the broad influences shaping the vision and development of the social work profession. The fourth edition brings together a team of expert authors to guide students through the unique experiences of social work across Australia and Aotearoa New Zealand. It explores how the enduring commitment to social justice and the protection of human rights shapes social work perspectives and practices.
