Teaching in the Knowledge Society Andy Hargreaves,2003-01-01 We are living in a defining moment when the world in which teachers do their work is changing profoundly In his latest book Hargreaves proposes that we have a one time chance to reshape the future of teaching and schooling and that we should seize this historic opportunity Hargreaves sets out what it means to teach in the new knowledge society to prepare young people for a world of creativity and flexibility and to protect them against the threats of mounting insecurity He provides inspiring examples of schools that operate as creative and caring learning communities and shows how years of soulless standardization have seriously undermined similar attempts made by many non affluent schools Hargreaves takes us beyond the dead ends of standardization and divisiveness to a future in which all teaching can be a high skill creative life shaping mission because the knowledge society requires nothing less This major commentary on the state of today s teaching profession in a knowledge driven world is theoretically original and strategically powerful a practical inspiring and challenging guide to rethinking the work of teaching *School and Society* School of Education,School of Education Staff,2012-06-29

Education and Society Meenakshi Thapan,2015 Education and Society Themes Perspectives Practices concerns itself with the social issues and contexts that underpin education and learning in India It begins with a focus on the possibilities opened up by education whether these concern the individual society or the world at large Through an excellent selection of essays arranged in six thematic sections this volume provides an overview of the major underlying concepts in the sociology of education as well as of the processes and practices that explicate education in contemporary India Most essays are grounded on empirical research and use ethnography in seeking to understand education from the perspective of students teachers as well as the institutional and non institutional settings within which educational practices occur The rich and panoramic introduction provides a broad canvas to the essays which are intentionally both an academic work and a pedagogical aid since education is both an intellectual discipline and also a profession *The Schooled Society* David P Baker,2023-05-25 Path breaking offers a rich encompassing global perspective on education articulates an educationally grounded vision of contemporary society David John Frank University of California Irvine Only 150 years ago the majority of the world s population was largely illiterate Today not only do most people over fifteen have basic reading and writing skills but 20 percent of the population attends some form of higher education What are

the effects of such radical large scale change David Baker argues that the education revolution has transformed our world into a schooled society that is a society that is actively created and defined by education Drawing on neo institutionalism The Schooled Society shows how mass education interjects itself and its ideologies into culture at large from the dynamics of social mobility to how we measure intelligence to the values we promote The proposition that education is a primary rather than a reactive institution is then tested by examining the degree to which education has influenced other large scale social forces such as the economy politics and religion Rich groundbreaking and globally oriented The Schooled Society sheds light on how mass education has dramatically altered the face of society and human life One of the most important books in the sociology of education in quite some time It will solidify Baker s reputation as one of today s leading sociologists of education and comparative and international education Alan R Sadovnik Rutgers University David Baker explores formal education as a social cultural force in its own right The Schooled Society offers a powerful alternative perspective on the global educational revolution Maria Charles University of California Santa Barbara
