Twentieth Century Political Pamphlets Veronica Colley Cunningham,1994 *Red Seas* Gerald Horne,2009-09

During the heyday of the U S and international labor movements in the 1930s and 1940s Ferdinand Smith the Jamaican born co founder and second in command of the National Maritime Union NMU stands out as one of the most if not the most powerful black labor leaders in the United States Smith s active membership in the Communist Party however coupled with his bold labor radicalism and shaky immigration status brought him under continual surveillance by U S authorities especially during the Red Scare in the 1950s Smith was eventually deported to his homeland of Jamaica where he continued his radical labor and political organizing until his death in 1961 Gerald Horne draws on Smith s life to make insightful connections between labor radicalism and the Civil Rights Movement demonstrating that the gains of the latter were propelled by the former and undermined by anticommunism Moreover Red Seas uncovers the little known experiences of black sailors and their contribution to the struggle for labor and civil rights the history of the Communist Party and its black members and the significant dimensions of Jamaican labor and political radicalism *Successful step-parenting* David J. the richness in family studies over the next decade will come from considering the diversity of family forms different ethnic groups and cultures different stages of family life as well as different historical cohorts Their goal is to make more explicit how we think about families in order to study them and understand them To illustrate the need for diversity in family studies examples are presented from new and old families majority and minority families American and Japanese families and intact and divorcing families This variety is intended to push the limits of current thinking not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value
