Sport Tourism Heather J. Gibson, 2013-09-13 The study of sport tourism is on the cusp of moving from a descriptive phase of research into an analytical phase. Consequently many academics and graduate students are searching for theories upon which to ground their work. This book draws upon theories and concepts from sociology and anthropology, the socio-cultural perspective, sport and tourism studies, and business studies. One of the dangers of a new area of study is that the body of knowledge is built on a range of seemingly unrelated studies.
