Sm'algyax John Asher Dunn,1995 A dictionary and a grammar of the Sm'algyax language of the Coast Tsimshian people first published in 1978 and 1979 by the National Museums of Canada and the Canadian Museum of Civilization The dictionary includes a transcription morphological information English glosses and phonetic transcriptions for each word The reference grammar is a nontechnical introduction to phonology morphology and syntax with summaries showing basic sentence types and their grammatical relationships The grammar contains no index c Book News Inc *The Emergence of Distinctive Features* Jeff Mielke,2008-03-13 The Emergence of Distinctive Features will be of essential interest to phonologists and typologists as well as to syntacticians cognitive scientists and scholars outside linguistics interested in the nature of language and its acquisition BOOK JACKET **Deconstructing Ergativity** Maria Polinsky,2016-04-12 Building upon theoretical innovations and extensive empirical findings this book explains variation in the syntactic behavior of ergative arguments across languages It offers a new analysis of ergativity by recognizing two distinct types PP ergative and DP ergative languages Each type is characterized by a set of correlated features which result in structural consistency

The Languages and Linguistics of Indigenous North America Carmen Dagostino,Marianne Mithun,Keren Rice,2023-09-05 This handbook provides broad coverage of the languages indigenous to North America with special focus on typologically interesting features and areal characteristics surveys of current work and topics of particular importance to communities The volume is divided into two major parts subfields of linguistics and family sketches The subfields include those that are customarily addressed in discussions of North American languages sounds and sound structure words sentences as well as many that have received somewhat less attention until recently tone prosody sociolinguistic variation directives information structure discourse meaning language over space and time conversation structure evidentiality pragmatics verbal art first and second language acquisition archives evolving notions of fieldwork Family sketches cover major language families and isolates and highlight topics of special value to communities engaged in work on language maintenance documentation and revitalization [Linguistic and Genetic \(mtDNA\) Connections between Native Peoples of Alaska and California](#) Cecil H. Brown,Kent G. Lightfoot,Nancy J. Turner,Dana Lepofsky,2024-11-05 Linguistic and Genetic mtDNA Connections between Native Peoples of Alaska and California Ancient Mariners of the Middle Holocene traces the linguistic and biological connections between contemporary Aleut people of southwest Alaska and historic Utian people of central California During the Middle Holocene Period Aleut and Utian languages diverged from their common parent language Proto Aleut Utian PAU spoken by people who resided on or near Kodiak Island in coastal southwest Alaska Around the time of divergence Utiens departed the PAU homeland migrating by watercraft along the eastern Pacific coast to the San Francisco Bay Area The affiliation between Aleut and Utian languages is strongly supported by comparative linguistics and by the genetic link mtDNA of groups speaking these languages On their migration Utiens encountered coastal groups

speaking languages different from their own Through these prolonged and intimate interactions words were borrowed from Utiian into the languages of these native coastal communities Other significant findings explored in this book are the lack of compelling evidence for the kinship of Eskimo and Aleut peoples despite scholarship's long term acceptance of this proposal and the discovery of language structure features shared by Yeniseian and Na Dene indicating an historical connection for these circumpolar languages

Traditional Ecological Knowledge and Natural Resource Management Charles R. Menzies, 2006-01-01 Traditional Ecological Knowledge and Natural Resource Management examines how traditional ecological knowledge TEK is taught and practiced today among Native communities Of special interest is the complex relationship between indigenous ecological practices and other ways of interacting with the environment particularly regional and national programs of natural resource management Focusing primarily on the northwest coast of North America scholars look at the challenges and opportunities confronting the local practice of indigenous ecological knowledge in a range of communities including the Tsimshian the Nisga'a the Tlingit the Gitksan the Kwagwiltz the Sto'lo and the northern Dene in the Yukon The experts consider how traditional knowledge is taught and learned and address the cultural importance of different subsistence practices using natural elements such as seaweed Gitksan pine mushrooms Tsimshian and salmon Tlingit Several contributors discuss the extent to which national and regional programs of resource management need to include models of TEK in their planning and execution This volume highlights the different ways of seeing and engaging with the natural world and underscores the need to acknowledge and honor the ways that indigenous peoples have done so for generations

The Oxford Handbook of Language Prosody Carlos Gussenhoven, Aojun Chen, 2021-01-07 This handbook presents detailed accounts of current research in all aspects of language prosody written by leading experts from different disciplines The volume's comprehensive coverage and multidisciplinary approach will make it an invaluable resource for all researchers students and practitioners interested in prosody

Language Use and Linguistic Structure. Proceedings of the Olomouc Linguistic Colloquium 2023 Janebová, Markéta, Čáková, Michaela, Emonds, Joseph, The latest volume of OLINCO proceedings is a selected set of sixteen papers that grew from presentations at OLINCO 2023 the international Olomouc Linguistics Colloquium held at Palacký University in June 2021 The papers collected here are unified by the topic of the colloquium Language Use and Linguistic Structure in that they all in one way or the other address the central questions of the study of human language They all use standard scientific methodology and theory and solidly researched empirical evidence in favor of formalized structural representations of the language system

Handbook of North American Indians, Volume 17 William C. Sturtevant, 1978 Encyclopedic summary of prehistory history cultures and political and social aspects of native peoples

Tsimshian Culture Jay Miller, 2000-10-01 The Tsimshians are a Northwest Coast Native people known for their dazzling works of art and rich array of social religious and oral traditions that have captured the attention of scholars for over a century Jay Miller brings together for the first time a wealth of material about

the Tsimshians presenting an unforgettable picture of their cultural universe That universe is built around the metaphor of light which was brought into the world by Raven its refraction forms the chief social religious and symbolic institutions of Tsimshian culture Family heraldic crests express light in one way masks in another Miller argues convincingly that the genius of Tsimshian culture and one of the main reasons for its continuing vitality is that its people are sensitive to different and often creative ways of capturing and embodying light

A Survey of Word Accentual Patterns in the Languages of the World Harry van der Hulst, Rob Goedemans, Ellen van Zanten, 2010-12-15 In part I of this volume experts on various language areas provide surveys of word stress accent systems of as many languages in their part of the world as they could lay their hands on No preconditions theoretical or otherwise were set but the authors were encouraged to use the StressTyp data in their chapters Australian Languages Rob Goedemans Austronesian Languages Ellen van Zanten Ruben Stoel and Bert Remijsen Papuan Languages Ellen van Zanten and Philomena Dol North American Languages Keren Rice South American Languages Sergio Meira and Leo Wetzels African Languages Laura Downing European Languages Harry van der Hulst Asian Languages Harry van der Hulst and Ren Schiering Middle Eastern Languages Harry van der Hulst and Sam Hellmuth There is an introductory chapter Chapter 1 that will provide the reader with elementary terminology and theoretical tools to understand the variety of accentual systems that will be discussed in the subsequent chapters of this book Chapter 2 has a double function It presents an overview of stress patterns in Australian languages but at the same time it is intended to re familiarize readers with the coding terminology and theoretical ideas of the StressTyp database Chapter 11 presents statistical and typological information from the StressTyp database Part II of this volume contains language profiles which are for each of the 511 languages contained in StressTyp in 2009 extracts from the information that is contained in the database This volume will be of interest to people in the field of theoretical phonology and language typology It will function as a reference work for these groups of researchers but also more generally for people working on syntax and other fields of linguistics who might wish to know certain basic facts about the distribution of word accent systems

Linguistic Variation in the Minimalist Framework M. Carme Picallo, 2014-07-24 In this book leading scholars consider the ways in which syntactic variation can be accounted for in a minimalist framework They explore the theoretical significance content and role of parameters whether or not variation should be strongly or weakly accounted for by syntactic factors and the explicitness or lack thereof that should be assumed with respect to the conditions imposed by narrow syntax The book is divided into two parts The first part contains chapters that consider the term parameter to be a relevant theoretical notion under minimalist tenets In the second part on the other hand chapters either argue that the term parameter amounts to no more than a label to describe variation or assign it a less prominent role Instead language variation is attributed to sociolinguistic factors language contact frequency of use or simply to options in the externalization of abstract syntactic relations The book offers a valuable overview of the different approaches adopted in the study of language variation phenomena and will appeal to

theoretical linguists of all persuasions from graduate level upwards **American Book Publishing Record** ,1995
