Streeter,2019-06-26 This important text provides a comprehensive survey of homelessness in America its scope and causes its diverse populations and the array of responses at the individual community and systems levels Expert contributors explore the links between trauma and homelessness the cycle of homelessness and health mental health problems and barriers preventing people from accessing services Case studies of effective programs and practices focus on science based interventions broad understanding of client needs and close coordination between systems and agencies Finally specialized chapters discuss issues and experiences common to homeless youth and young adults including housing instability on college campuses and empowerment based strategies for engaging youth voice in programming Included in the coverage Homelessness and health disparities a health equity lens Affordable housing and housing policy responses to homelessness Street talk homeless discourses and the politics of service provision Multisectoral collaborations to address homelessness Trauma informed care in homelessness service settings challenges and opportunities Incorporating youth voice into services for young people experiencing homelessness Homelessness Prevention and Intervention in Social Work fills a critical gap in the social work curriculum as a main or a supplementary text It also makes an accessible resource for clinicians and community practitioners seeking current knowledge on the topic practical approaches to working with clients experiencing homelessness and useful information for effective program and policy design Evidence-based Interventions in Social Work John S. Wodarski,Marvin D. Feit,2009 Evidence based Interventions in Social Work A Practitioner s Manual centers on the factorial complexity of planning interventions with major client groups Monumental economic and political forces are reshaping the way medical mental health and social services are delivered in the United States By focusing on the role of the social worker in the evolving systems of care the book addresses the following critical questions that have been generated by the empirical practice research Who should deliver the intervention to whom What intervention is the most effective with which clients Wher **Applying Research Evidence in Social Work Practice** Martin Webber,2017-09-16 This key textbook explores how good social work practice draws upon relevant and current research to ensure that interventions are as effective as possible Social workers are increasingly required to demonstrate their knowledge of the research and evidence that underpin the daily decisions they make and actions they take and it is therefore vital that they are not only up to date with the latest

research but that they have the tools and understanding to successfully apply this to their practice Written by leading experts in the field this text book provides a step by step guide to implementing research in to every day social work practice This is essential reading for any one taking a research module on Social Work programmes at undergraduate and postgraduate level or practitioners wishing to advance their own practise and deliver the best possible service they can **Social Workers' Desk Reference** Albert R. Roberts,2009 This is a new edition of the wildly successful everyday reference for social workers Like the first edition it has been crafted with the help of an extensive needs assessment survey of educators and front line practitioners ensuring that it speaks directly to the daily realities of the profession It features 40% new material and a more explicit focus on evidence based practice **Handbook of Stress in the Occupations** Janice Langan-Fox,Cary L. Cooper,2011-01-01 The Handbook of Stress in the Occupations sets a new agenda for stress research and gives fresh impetus to scholars who wish to focus on issues and problems associated with specific jobs some of which have received little attention in the past Written by researchers who are true experts in the field of each occupation this comprehensive Handbook reviews stress in a wide range of jobs including transport education farming fishing oil rig drilling finance law enforcement fire fighting entrepreneurship music social services prisons sport and health including surgery internship dentistry nursing paramedics psychiatry and social work Several occupations such as oil rig drilling are reviewed these jobs have always been stressful but have received little attention by researchers and only now receive more focus due to the Bay of Mexico accident Other occupations demand more of our attention because there have been substantial technological changes in particular jobs such as in dentistry nursing and surgery This lucid and insightful compendium will be a source of inspiration for those in the helping professions and all those individuals working in the industries described in the book More specifically the Handbook will strongly appeal to human resource specialists psychologists occupational health and safety professionals managers nurses and therapists Written in highly accessible language it will also provide rich reading to lay audiences including job incumbents themselves as well as specialists in industry and academia Academics and postgraduate students of business management and psychology will find plenty of detailed information regarding stress associated with occupations **Research on Social Work and Disasters** Calvin Streeter,Susan A. Murty,1997-02-07 Research on Social Work and Disasters shows readers significant ways in which the social work profession can become involved in prevention mitigation and preparedness activities to reduce the impact of disasters worldwide Chapters illustrate a variety of types of disasters theoretical approaches methodologies and levels of analysis found in recent research While this research is consistent with the tradition and mission of the social work profession it also presents innovative work focusing on disasters and uses advanced qualitative and quantitative research methodologies **The Comprehensive Guide to Interdisciplinary Veterinary Social Work** Sana Loue,Pamela Linden,2022-09-27 This book responds to the needs that arise at the intersection of people and animals focusing on human animal interaction human animal studies the emotional

work of caring for animals and animal assisted interventions and therapies Unlike many works that focus primarily on issues at the micro level such as animal assisted interventions this volume is unique in its focus on issues arising at the micro macro and mezzo levels encompassing human animal issues and interactions at the level of individuals and family groups institutions and communities Accordingly this comprehensive guide addresses the need to better prepare practitioners to work in interdisciplinary environments whether in the context of theory research practice or advocacy The authorship of the volume reflects the interdisciplinary foundations of veterinary social work with contributions from social workers psychologists veterinarians physicians anthropologists and bioethicists The volume is divided into five parts that examine respectively the foundations history and scope of veterinary social work Part I the practice of veterinary social work with individuals in the context of community programs and in social work practice Part II veterinary social work and the veterinary setting including veterinary well being and conflict management Part III veterinary social work education Part IV and the future of veterinary social work Part V Importantly the volume addresses not only practice issues in the veterinary clinical and community settings but also examines ethical concerns in the clinical and research contexts and the implications of cultural and societal variations on the practice of veterinary social work The Comprehensive Guide to Interdisciplinary Veterinary Social Work is the definitive resource for social workers and psychologists new to practice issues relating to animals social work and psychology students at the graduate and undergraduate levels veterinarians and veterinary students hospital administrators human hospitals and veterinary hospital managers

Encyclopedia of Trauma Charles R. Figley, 2012-06-19 Trauma is defined as a sudden potentially deadly experience often leaving lasting troubling memories Traumatology the study of trauma its effects and methods to modify effects is exploding in terms of published works and expanding in terms of scope Originally a narrow specialty within emergency medicine the field now extends to trauma psychology military psychiatry and behavioral health post traumatic stress and stress disorders trauma social work disaster mental health and most recently the subfield of history

and trauma with sociohistorical examination of long term effects and meanings of major traumas experienced by whole communities and nations both natural Pompeii Hurricane Katrina and man made the Holocaust 9 11 One reason for this expansion involves important scientific breakthroughs in detecting the neurobiology of trauma that is connecting biology with human behavior which in turn is applicable to all fields involving human thought and response including but not limited to psychiatry medicine and the health sciences the social and behavioral sciences the humanities and law Researchers within these fields and more can contribute to a universal understanding of immediate and long term consequences both good and bad of trauma both for individuals and for broader communities and institutions Trauma encyclopedias published to date all center around psychological trauma and its emotional effects on the individual as a disabling or mental disorder requiring mental health services This element is vital and has benefited from scientific and professional breakthroughs in theory research and applications Our encyclopedia certainly will cover this central element but our expanded conceptualization will include the other disciplines and will move beyond the individual
