multiculturalism has also served as a driving force behind social movements in the Americas Nevertheless in current academic discussions and public debates on migration globalization and identity politics concepts like new ethnicities ethnic groupism creolization hybridity mestizaje diasporas and post ethnicity articulate positionings that are profoundly changing our understanding of multiculturalism Combining theoretical reflections with case studies the aim of this book is to demonstrate the current dynamics of post multicultural politics in the Americas This book was based on a special issue of Latin American and Caribbean Ethnic Studies Handbook of Quality of Life and Social Change Cornelia C.

Castro,Orna Naftali,2024-10-18 What would a body of literature focusing on Southern childhoods look like when epistemologically driven by the demands social cultural economic political of the localities in which they are shaped and produced To answer this question this book explores locally driven perspectives of childhoods in diverse contexts in the Global South to produce knowledge of Southern childhoods determined not by Northern priorities and frameworks but by local needs and contexts Given the intensification of global processes and the extent to which the local and the global intersect in the everyday lives of children and their families this edited volume demonstrates that a focus on the epistemological demands of localities necessarily grapples with global as well as local processes and concepts Chapters in this collection include empirical research on child participation and activism schooling educational experiences child work and street children They use methodologies ranging from arts based methods to participant observation and engage with theories relating to child participation agency and vulnerability to produce a key resource on Southern childhoods The
