"Education Has Nothing to Do with Theology" Edward J. Newell, 2006-08-01 Does education have any relation to theology How do the educator s worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story
