Tanner Lectures On Human Values 1981:

The Tanner Lectures on Human Values Amartya Kumar Sen,1986 **The Tanner Lectures on Human Values** McMurrin,2011-04-28 A prestigious series of lectures that are international and intercultural and transcend ethnic national religious and ideological distinctions *The Tanner Lectures on Human Values* Sterling M. McMurrin,2011-04-28 A prestigious series of lectures that are international and intercultural and transcend ethnic national religious and ideological distinctions **Handbook of Income Distribution** Anthony Barnes Atkinson,François Bourguignon,2000 *Politics and Truth* Theresa Man Ling Lee,1997-01-01 Considers the contested concept of truth in contemporary politics in light of the postmodernist challenge to Enlightenment ideals and examines the treatment of truth in an unusual lineup of thinkers ranging from Plato and Hobbes to Weber Foucault and Arendt *Intention in Law and Philosophy* Ngaire Naffine,Rosemary Owens,2019-05-24 This title was first published in 2001 Legal systems are posited on the assumption that people are rational intentional agents who can choose to follow or break the law This book connects the common interests of lawyers and philosophers in the meaning of intention and its relation to responsibility in legal moral and political contexts Joan Robinson Fouad Sabry,2024-02-01 Who is Joan Robinson Born in the United Kingdom Joan Violet Robinson was a prominent economist who made significant contributions to the field of economic theory In the 20th century Joan Robinson who is widely considered to be one of the most influential economists of the century was the person who embodied the Cambridge School in the majority of its guises In the beginning she was a Marshallian in 1936 she became one of the early and most fervent Keynesians and in the end she became a leader of the Neo Ricardian and Post Keynesian schools of thought How you will benefit I Insights about the following Chapter 1 Joan Robinson Chapter 2 Neoclassical economics Chapter 3 Post Keynesian economics Chapter 4 Economist Chapter 5 Joseph Stiglitz Chapter 6 John Hicks Chapter 7 Paul Samuelson Chapter 8 Alfred Eichner Chapter 9 Edward Chamberlin Chapter 10 History of economic thought Chapter 11 Schools of economic thought Chapter 12 Paul Davidson economist Chapter 13 Micha language Chapter 14 Athanasios Asimakopulos Chapter 15 Geoffrey Harcourt Chapter 16 Victoria Chick Chapter 17 An Essay on Marxian Economics Chapter 18 Cambridge capital controversy Chapter 19 Faculty of Economics University of Cambridge Chapter 20 Donald J Harris Chapter 21 Marjorie Hollond Who this book is for Professionals undergraduate and graduate students enthusiasts hobbyists and those who want to go beyond basic knowledge or information about Joan Robinson **Queer Beauty** Whitney Davis,2010-08-26 The pioneering work of Johann Winckelmann 1717 1768 identified a homoerotic appreciation of male beauty in classical Greek sculpture a fascination that had endured in Western art since the Greeks Yet after Winckelmann the value even the possibility of art s queer beauty was often denied Several theorists notably the philosopher Immanuel Kant broke sexual attraction and aesthetic appreciation into separate or dueling domains In turn sexual desire and aesthetic pleasure had to be profoundly rethought by later writers Whitney Davis follows how such innovative thinkers as John Addington Symonds Michel

Foucault and Richard Wollheim rejoined these two domains reclaiming earlier insights about the mutual implication of sexuality and aesthetics Addressing texts by Arthur Schopenhauer Charles Darwin Oscar Wilde Vernon Lee and Sigmund Freud among many others Davis criticizes modern approaches such as Kantian idealism Darwinism psychoanalysis and analytic aesthetics for either reducing aesthetics to a question of sexuality or for removing sexuality from the aesthetic field altogether Despite these schematic reductions sexuality always returns to aesthetics and aesthetic considerations always recur in sexuality Davis particularly emphasizes the way in which philosophies of art since the late eighteenth century have responded to nonstandard sexuality especially homoeroticism and how theories of nonstandard sexuality have drawn on aesthetics in significant ways Many imaginative and penetrating critics have wrestled productively though often inconclusively and against themselves with the aesthetic making of sexual life and new forms of art made from reconstituted sexualities Through a critique that confronts history philosophy science psychology and dominant theories of art and sexuality Davis challenges privileged types of sexual and aesthetic creation imagined in modern culture and assumed today

Ethics and Economic Affairs Alan Lewis, Karl-Erik Wärneryd, 2002-01-08 There has been a remarkable growth of interest in the ethical dimension of economic affairs Whilst the interest in business ethics has been long standing it has been given renewed emphasis by high profile scandals in the world of business and finance At the same time many economists dissatisfied with the discipline's emphasis on self interest and individualism and by the asocial nature of much economic theory have sought to enlarge the scope of economics by looking at ethical questions In this volume a group of interdisciplinary scholars provide contributions which include evaluations of work in business ethics empirical studies of such issues as social and ethical investing the place of ethics in the new economics and perspectives from other disciplines

Cosmopolitan Justice Darrel Moellendorf, 2018-03-08 Increasing global economic integration and recent military interventions in the name of human rights have forced questions of global justice into political discussions In presenting a systematic account of global duties of justice *Cosmopolitan Justice* departs from many contemporary accounts that take the scope of justice to be limited to the state or nation Is the unequal distribution of wealth across the globe just Are the most indebted countries obliged to pay back their loans to international financial institutions Does respecting state sovereignty prohibit intervening in the affairs of other states What is the moral basis of international law *Cosmopolitan Justice* takes on these questions and much more

Arguments for a Better World: Essays in Honor of Amartya Sen Kaushik Basu, Ravi Kanbur, 2008-12-04 Amartya Sen has made deep and lasting contributions to the academic disciplines of economics philosophy and the social sciences more broadly He has engaged in policy dialogue and public debate advancing the cause of a human development focused policy agenda and a tolerant and democratic polity This argumentative Indian has made the case for the poorest of the poor and for plurality in cultural perspective It is not surprising that he has won the highest awards ranging from the Nobel Prize in Economics to the Bharat Ratna India's highest civilian honor This public recognition

has gone hand in hand with the affection and admiration that Amartya's friends and students hold for him. This volume of essays written in honor of his 75th birthday by his students and peers covers the range of contributions that Sen has made to knowledge. They are written by some of the world's leading economists, philosophers and social scientists and address topics such as ethics, welfare, economics, poverty, gender, human development, society and politics. This first volume covers the topics of Ethics, Normative Economics and Welfare, Agency Aggregation and Social Choice, Poverty, Capabilities and Measurement and Identity, Collective Action and Public Economics. It is a fitting tribute to Sen's own contributions to the discourse on Ethics, Welfare and Measurement. Contributors include Sabina Alkire, Paul Anand, Sudhir Anand, Kwame Anthony Appiah, A. B. Atkinson, Walter Bossert, Francois Bourguignon, John Broome, Satya R. Chakravarty, Rajat Deb, Bhaskar Dutta, James E. Foster, Wulf Gaertner, Indranil K. Ghosh, Peter Hammond, Christopher Handy, Christopher Harris, Satish K. Jain, Isaac Levi, Oliver Linton, S. R. Osmani, Prasanta K. Pattanaik, Edmund S. Phelps, Mozaffar Qizilbash, Martin Ravallion, Kevin Roberts, Ingrid Robeyns, Maurice Salles, Cristina Santos, T. M. Scanlon, Arjun Sengupta, Tae Kun Seo, Anthony Shorrocks, Ron Smith, Joseph E. Stiglitz, S. Subramanian, Kotaro Suzumura, Alain Trannoy, Guanghua Wan, John A. Weymark and Yongsheng Xu. *Killing and Letting Die* Bonnie Steinbock, Alastair Norcross, 2024-10-22 Available in a new digital edition with reflowable text suitable for e-readers. This collection contains twenty-one thought-provoking essays on the controversies surrounding the moral and legal distinctions between euthanasia and letting die. Since public awareness of this issue has increased, this second edition includes nine entirely new essays which bring the treatment of the subject up to date. The urgency of this issue can be gauged in recent developments such as the legalization of physician-assisted suicide in the Netherlands, how-to manuals topping the bestseller charts in the United States and the many headlines devoted to Dr. Jack Kevorkian who has assisted dozens of patients to die. The essays address the range of questions involved in this issue, pertaining especially to the fields of medical ethics, public policymaking and social philosophy. The discussions consider the decisions facing medical and public policymakers, how those decisions will affect the elderly and terminally ill, and the medical and legal ramifications for patients in a permanently vegetative state as well as issues of parent-infant rights. The book is divided into two sections. The first, Euthanasia and the Termination of Life Prolonging Treatment, includes an examination of the 1976 Karen Quinlan Supreme Court decision and selections from the 1990 Supreme Court decision in the case of Nancy Cruzan. Featured are articles by law professor George Fletcher and philosophers Michael Tooley, James Rachels, and Bonnie Steinbock, with new articles by Rachels and Thomas Sullivan. The second section, Philosophical Considerations, probes more deeply into the theoretical issues raised by the killing/letting die controversy, illustrating exceptionally well the dispute between two rival theories of ethics: consequentialism and deontology. It also includes a corpus of the standard thought on the debate by Jonathan Bennett, Daniel Dinello, Jeffrie Murphy, John Harris, Philipa Foot, Richard Trammell, and N. Ann Davis, and adds articles new to this edition by Bennett, Foot, Warren Quinn, Jeff McMahan, and Judith Lichtenberg. *The Possibility of Politics* Stein Ringen, 2017-09-04 The

Possibility of Politics explores the power of political reform specifically reform of the modern welfare state Can reform be effective if limited to cautious and piecemeal interventions that avoid radicalism and revolution Can it also avoid unwanted consequences Will the welfare state survive in the future Stein Ringen views the welfare state as a large scale experiment in political reform To ask if the welfare state works is to ask if political reform is possible at all By its nature the welfare state is reform on a grand scale for it attempts to change the circumstances individuals and families live under without changing and disrupting society itself But is it realistic to believe a population can get together set goals and then try to meet these goals through collective actions specifically public policies without causing unintended consequences and destroying the state in the process The welfare state attempts idealistically to redistribute welfare without reshaping the economic processes that cause inequities in the first place Ringen considers how well redistribution has met the test in terms of political legitimacy its intended effects on poverty and inequality as well as its undesired and unintended effects on economic efficiency and the quality of private life Ultimately does the welfare state work Further is the welfare state a good thing In considering these questions The Possibility of Politics should be of particular value to academics and advanced students interested in political theory public economics social administration and political sociology Stein Ringen is professor of sociology and social policy at Oxford University and a Fellow of Green College He teaches social and political theory and research methodology for graduates in social policy sociology politics economic and social history and other subjects

The Later Foucault Jeremy Moss, 1998-03-06 Why does Foucault's work continue to be of central importance in current debates in sociology political science and philosophy Why do we still read him as a guide to contemporary social and cultural life Foucault's work presents a provocative challenge to orthodox habitual forms of belief and practice The Later Foucault with an impressive interdisciplinary focus argues that one of the keys to understanding Foucault is his political thought It is this which he expressed clearly in his last writings and which pulled together his earlier interests in power agency and subjectivity In this volume a distinguished array of Foucauldian scholars and commentators on politics explore the significance of these last writings They examine such key issues as the question of Foucault and human rights his relationship to ethical thought power and freedom his relationship to feminism and comparisons of his work with Levinas and Rawls

Wallace Stegner Jackson J. Benson, 2009-01-01 In a career spanning more than fifty years Wallace Stegner 1909-93 emerged as the greatest contemporary author of the American West writing more than two dozen works of history biography essays and fiction including the Pulitzer Prize winning *Angle of Repose* and the bestselling *Crossing to Safety* Jackson J Benson's *Wallace Stegner His Life and Work* is the first full dress biography of this celebrated Dean of Western Writers Drawing on nearly ten years of research and unlimited access to Stegner's letters and personal files Benson traces the trajectory of Wallace Stegner's life from his birth on his grandfather's Iowa farm to his prominence as an award winning writer critic historian environmental activist and teacher and as founder of Stanford's creative writing program But Benson's book is as much a

consideration of Stegner's literary legacy as it is a retelling of his life. His critical reassessment of the entire body of Stegner's work argues convincingly for his subject's place in the literary canon not merely as a regional Western writer but straightforwardly as one of the great American writers of the twentieth century.

Illness as a Work of Thought Monica Greco, 2002-01-04 Illness as a Work of Thought is a practical application of Foucault's archaeological and genealogical methods of the study of illness and modernity. From medicine and psychiatry to psychology and the social sciences, Monica Greco explores what the history of these different disciplines contributes to what we understand by the term psychosomatics and analyses how the study of psychosomatic illness can transform the way we think of illness, subjectivity, and the ethics and politics of health.

Joan Robinson and the Americans Marjorie Shepherd Turner, 2017-07-05 Employees with valuable skills and a sense of their own worth can make their jobs pay perks and career opportunities different from those of their coworkers in subtle and not so subtle ways. This book shows how such individual arrangements can be made fair and acceptable to coworkers and beneficial to both the employee and the employer.

Material Beings Peter Van Inwagen, 1990-12-04 According to Peter van Inwagen, visible inanimate objects do not strictly speaking exist. In defending this controversial thesis, he offers fresh insights on such topics as personal identity, commonsense belief, existence over time, the phenomenon of vagueness, and the relation between metaphysics and ordinary language.

Resources, Values and Development Amartya Kumar Sen, Amartya Sen, 1997 Resources, Values and Development contains many of Amartya Sen's path-breaking contributions to development economics, including papers on resource allocation in nonwage systems, shadow pricing, employment policy, welfare economics, poverty assessment, gender-based inequality, and hunger and famines.

Frankfurt School Perspectives on Globalization, Democracy, and the Law William E. Scheuerman, 2011-06-23 This volume makes use of the first generation Frankfurt School political and legal theorist Franz L. Neumann in conjunction with his famous successor Jürgen Habermas to try to understand the momentous political and legal transformations generated by globalization.
