**Medieval German Literature** Marion Gibbs, Sidney M. Johnson, 2002-09-11 Medieval German Literature provides a comprehensive survey of this Germanic body of work from the eighth century through the early fifteenth century The authors treat the large body of late medieval lyric poetry in detail for the first time *Constructing Virtue and Vice* Olga V. Trokhimenko, 2014 The study examines textual representations of women's laughter and smiling and their imagined connection to female virtue in a wide variety of discourses and contexts of the German Middle Ages including medieval epic ecclesiastical texts conduct literature lyric and sculpture By engaging with the competing and at times contradictory views of female laughter it reaffirms a disputatious nature of medieval culture in which multiple views of femininity sexuality and virtue stood in a conflicting yet productive dialogue with one another The society that emerges when one looks at medieval German texts is always ambivalent it thrives on and enjoys talking about sensuality and eroticism while being constrained by the conventions of polite behavior and the fear of sin it relies on the ritual use of laughter while marking it as a sign of lust and perdition Women's laughter thus offers an important way into understanding medieval views of gender because it combines physicality with shifting and conflicting cultural norms

**Kudrun**, 2025-02-21 I am a huge fan of Whobrey's translations These new English translations of Kudrun Wolf Dietrich and Otnit uphold the quality to which I've grown accustomed in his work They do an excellent job of capturing the language and cadence of the texts and are as accurate readable and fluent as the original texts allow them to be I especially love the texts Wolf Dietrich and Otnit and I'm thrilled they are now available for the first time in English translation They are such fun to read and I hope that students find their hapless heroes as entertaining and humorous as I do In short it is a delight to read Whobrey's English translations of these tales and I'm excited to teach with them Kathryn Starkey Stanford University

**Female Beauty Systems** Christine

Adams, Tracy Adams, 2015-09-04 Female beauty systems everywhere are complex integrating markers of class status power and sexuality to perform the fundamental function of sorting individuals into categories of more or less desirable. Heirs to the tradition of courtly love, modern western female beauty systems tend to share the norm of man as pursuer, woman as pursued, having developed around the trope of the madly desiring poet or knight supplicating his aloof and lovely lady for her favor. The apparent longevity of the courtly love tradition raises the question of whether the way in which it structures male desire in reaction to female beauty is part of a universal tendency, an evolutionary adaptation, despite clear evidence that female beauty systems are also in fact socially constructed and reflect enormous ambivalence about the power and performance of beauty. Although modern western female beauty systems are routinely demystified and contested today, the purveyors of culture that support them—institutional, intellectual, artistic, commercial, and popular—continue as they always have to construe women as objects of male desire. Still within this basic structure, the systems have varied greatly across time and space, with women using beauty as a form of social capital in widely differing ways. Moreover, as individuals have begun to experience their bodies as malleable and endlessly transformable rather than unruly and unyielding, many have begun to experience beauty less as a given and more as a project. The nine essays collected here examine a number of different Western female beauty systems over the centuries, considering how women have complied with, contributed to, profited or suffered from, and resisted them.

Parody Beate Müller, 2023-11-27 Parody is a most iridescent phenomenon of ancient Greek origin; parody's very malleability has allowed it to survive and to conquer Western cultures. Changing discourse on parody, its complex relationship with related humorous forms (e.g., travesty, burlesque, satire), its ability to cross genre boundaries, the many parodies handed down by tradition, and its ubiquity in contemporary culture all testify to its multifaceted nature. No wonder that parody has become a phrase without clear meaning. The essays in this collection reflect the multidimensionality of recent parody studies. They pay tribute to its long and varied tradition, covering examples of parodic practice from the Middle Ages to the present day and dealing with English, American, postcolonial, Austrian, and German parodies. The papers range from the Medieval classics (e.g., Chaucer's parodies of Shakespeare) and the role of parody in German Romanticism to parodies of *fin de siècle* literature and the intertextual puzzles of the late twentieth century, such as cross-dressing, Schwab's *Faust* parody, and Rushdie's *Satanic Verses*. And they have transformed the contentious nature of parody into a diverse range of methodologies. In doing so, these essays offer a survey of the current state of parody studies.

*The Look of Things* Carsten Strathausen, 2003-12-04 Examining the relationship between German poetry, philosophy, and visual media around 1900, Carsten Strathausen argues that the poetic works of Rainer Maria Rilke, Hugo von Hofmannsthal, and Stefan George focused on the visible *gestalt* of language as a means of competing aesthetically with the increasing popularity and reality effect of photography and film. Poetry around 1900 self-reflectively celebrated its own words as both transparent signs and material objects. Strathausen says, "In Aestheticism this means that language harbors

the potential to literally present the things it signifies Rather than simply describing or picturing the physical experience of looking as critics have commonly maintained modernist poetry claims to enable a more profound kind of perception that grants intuitive insights into the very texture of the natural world
