Tao Drops I Change:

Vietnam's Children in a Changing World Rachel Burr, 2006-03-24 Like the majority of children living in the global South today a large number of Vietnamese youths work to help support their families International human rights organizations have focused on these children seeking to bring their lives into line with an understanding of childhood that is generally accepted in the developed world In this ethnographic study Rachel Burr draws on her daily observations of working children in Hanoi and argues that these youngsters are misunderstood by the majority of agencies that seek to help them Most aid programs embrace a model of childhood that is based on Western notions of individualism and bountiful resources They further assume that this model is universally applicable even in cultures that advocate a collective sense of self and in countries that do not share the same economic advantages Burr presents the voices and experiences of Vietnamese children in the streets in a reform school and in an orphanage to show that workable solutions have become lost within the rhetoric propagated by aid organizations The reality of providing primary education or adequate healthcare for all children for instance does not stand a chance of being achieved until adequate resources are put in place Yet organizations preoccupied with the child rights agenda are failing to acknowledge the distorted global distribution of wealth in favor of Western nations Offering a unique firsthand look at the experiences of children in contemporary Vietnam this book also provides a broad analysis of how internationally led human rights agendas are often received at the local level

In Captivity Camille Suzanne Guthrie, 2006 Poetry Camille Guthrie transposes the pastoral themes of the medieval Unicorn Tapestries with those of modern urban life in an ingenious re imagining of both Amidst her flora and fauna we encounter a lookout a boyfriend informants hunters poets and a rock star all fresh translations of familiar figures Here the unicorn becomes a blank figure for the beloved knowledge and vision The allegory of the hunt becomes the pursuit of the elusive prey of meaning As in THE MASTER THIEF subpress 2000 Guthrie agilely uses traditional and modern poetic forms These fearless poems invite the reader to be startled by ideas and ambushed by beauty Camille Guthrie s sharp eye for lyric detail her use of shifting connections narrative fragments quotations and demarcations have produced a haunting and powerful collection of meditations This sequence is the work of an impressive new voice in American poetry Susan Howe A captivating composition A loving trap C D Wright Turn On, Tune In, Drop Out Timothy Leary, 2024-11-18 Written in the psychedelic era Turn On Tune In Drop Out is Timothy Leary at his best beckoning with humor and irreverence a vision of individual empowerment personal responsibility and spiritual awakening Includes Start Your Own Religion Education as an Addictive Process Soul Session Buddha as Drop Out Mad Virgin of Psychedelia God s Secret Agent o Homage to Huxley The Awe Ful See Er o The Molecular Revolution MIT is TIM Backwards Neurological Politics Trickster is a major figure in American Indian folk Wisdom Also in Sufi Tales a certain type of rascal with a grin and a wink and wisdom beyond wisdom in the Zen tradition this is known as the School of Crazy Wisdom Timothy Leary in his own inimitable way has become the twentieth century s grand master of crazy wisdom Dr Jeffrey Mishlove

A Passion for Wisdom Robert C. Solomon, Kathleen M. Higgins, 1999-01-28 When the ancient Greek philosopher Pythagoras was asked if he was a wise man he humbly replied No I am only a lover of wisdom This love of wisdom has been central to the philosophical enterprise for thousands of years inspiring some of the most dazzling and daring achievements of the human intellect and providing the very basis for how we understand the world Now readers eager to acquire a basic familiarity with the history of philosophy but intimidated by the task will find in A Passion for Wisdom Philosophy Through the Ages a lively accessible and highly enjoyable tour of the world s great ideas Without simplifying their subject editors Robert Solomon and Kathleen Higgins tell the story of philosophy s development with great clarity and refreshing wit The brevity of their study in fact allows readers to see more clearly the connections and divergences between philosophers as well as the way ideas change reappear and evolve over time The authors begin with the most ancient religious beliefs and bring us right up to the feminist and multicultural philosophies of the present Along the way major philosophers are highlighted from Plato and Aquinas to William James and Simone deBeauvoir and major categories explored from metaphysics and ethics to politics and logic We also see the evolution of enduring ideas how for example the value of subjective experience is treated in Augustine Luther Descartes and Kirkegaard how the idea of dynamic

change appears in the work of Heraclitus Darwin Hegel and Nietzsche and how the recurring dichotomies between faith and reason belief and skepticism mysticism and empiricism occupy philosophers from one generation to the next The authors make clear the many ways philosophers have argued with borrowed from and built on each other's ideas throughout the ages We see Francis Bacon rejecting Aristotelian dogma the impact of Buddhism on Schopenhauer and the influence of Hume and Rousseau on the monumental philosophy of Immanuel Kant The book is enlivened as well by telling anecdotes and sparkling quotations We're treated to Thomas Hobbes' assessment Life is nasty brutish and short Hegel's description of Napoleon as world history on horseback Schopenhauer's assertion that Art allows us a Sabbath from the penal servitude of willing and many other memorable and provocative observations Accessible comprehensive and delightfully written *A Passion for Wisdom* is a splendid introduction to an intellectual tradition that reaches back over three thousand years More than that it is a much needed reminder for the present of the power inherent in humanity's wonder before the world
