picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss. Reviews Magnificent must now be regarded as the standard work on the bombing war. It is probably the most important book published on the history of the second world war this century. Richard J Evans, Guardian. Monumental this is a major contribution to one of the most controversial aspects of the Second World War, full of new detail and perspectives, hugely impressive. James Holland, Literary Review. This tremendous book does what the war it describes signally failed to do. With a well thought out strategy and precision it delivers maximum force on its objectives. The result is a masterpiece of the historian's art. The Times. It is unlikely that a work of this scale, scope and merit will be surpassed. Times Higher Education. What distinguishes Mr Overy's account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear. Economist. Excellent. Overy is never less than an erudite and clear-eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends. Financial Times. Hard to surpass. If you want to know how bombing worked, what it did and what it meant, this is the book to read. Times Literary Supplement. About the author: Richard Overy is the author of a series of remarkable books on the Second World War and the wider disasters of the twentieth century: *The Dictators*, *Hitler's Germany*, *Stalin's Russia*. He won both the Wolfson Prize for History and the Hessell Tiltman Prize. He is Professor of History at the University of Exeter. Penguin publishes: 1939 *Countdown to War*, *The Morbid Age*, *Russia's War*, *Interrogations*, *The Battle of Britain* and *The Dictators*. He lives in London.

War in the Twentieth Century Richard Brian Miller, 1992-01-01. A timely anthology by Christian ethicists and ecclesial groups who are concerned with the justice of war in the 20th century. Seeking to sharpen our moral literacy about the ethics of war. The Cambridge History of the Second World War: Volume 1, Fighting the War John Ferris, Evan Mawdsley, 2017-11-23. The military events of the Second World War have been the subject of historical debate from 1945 to the present. It mattered greatly who won and fighting was the essential determinant of victory or defeat. In Volume 1 of *The Cambridge History of the Second World War*, a team of twenty-five leading historians offer a comprehensive and authoritative new account of the war's military and strategic history. Part I examines the military cultures and strategic objectives of the eight major powers involved. Part II surveys the course of the war in its key theatres across the world and assesses why one side or the other prevailed there. Part III considers in a comparative way key aspects of military activity including planning, intelligence and organisation of troops and material as well as guerrilla fighting and treatment of prisoners of war.

Target Leipzig Alan Cooper, 2009-11-19. A gripping account of the RAF's attempt to destroy a Messerschmitt factory in 1944 and the carnage and confusion that unfolded on a dark winter night. Seventy-nine heavy

bombers failed to return from the catastrophic raid on the industrial city of Leipzig on the night of February 19 20 1944 Some 420 aircrew were killed and a further 131 became prisoners of war It was at that time the RAF s most costly raid of World War II by far The town was attacked in an attempt to destroy the Messerschmitt factory that was building the famous and deadly Bf 109 fighter The bomber stream flew into what appeared to be a trap It seemed that the Luftwaffe and anti aircraft guns were aware of the intended target and waiting to pounce as soon as the bombers crossed the coast They were subjected to constant attack by night fighters and intense flak until those aircraft that remained clawed their way home and secured relative safety over the North Sea This book analyzes what went wrong Espionage played a part and two bombers collided shortly after takeoff as did others as they wove their way through enemy searchlights and maneuvered violently to escape Luftwaffe night fighters At the outset poor navigational and meteorological briefings had hindered the bombers attempts to locate the target and confusion reigned The author explains the concept of this third raid on Leipzig and describes the two previous ones in October and December 1943 both of which had been deemed successes He looks at the third raid from every angle including the defending force s and describes the daylight raid that followed on the 20th by the USAAF The book also includes appendices listing all RAF aircraft and crew on the raid route maps and many photographs

Journal of the United States Artillery, 1944 *A Guide to the Sources of British Military History* Robin Higham, 2015-10-05 Designed to fill an overlooked gap this book originally published in 1972 provides a single unified introduction to bibliographical sources of British military history Moreover it includes guidance in a number of fields in which no similar source is available at all giving information on how to obtain access to special collections and private archives and links military history especially during peacetime with the development of science and technology **Thirty Missions to Marie** Arthur G. Capaldi, 2016-11-01 This is a true story that follows Captain Edouard J Jacques a WWII Bombardier and Distinguished Flying Cross recipient and his crew from childhood through thirty bombing missions over Germany with the 755th Squadron 458 Bomb Group of the 8th Air Force from 1944 through 1945 It s a remembrance of ordinary men doing extraordinary feats in their quest to defeat the seemingly invincible Third Reich Included in their stories are those they left behind their wives girlfriends and family Their stories mirror that of thousands of young Americans who served on the B 24 heavy bombers in WWII and have not had their history documented These are the stories of young men from Rhode Island Utah South Carolina Texas Kentucky New Jersey New York Massachusetts Connecticut Oregon Pennsylvania and Neumarkt Germany Their backgrounds are as diverse as the places from which they came Through interviews their stories are told and it is apparent that while not similar in background or culture they were similar in their strength of character and love of country Those who are no longer with us had their stories told by those interviewed Those aviators who survived the war were the fortunate ones who returned home to their families wives girlfriends and to a grateful nation The history of the battle for Europe 1944 1945 is told in detail
