Intentionality and the New Traditionalism John T. Shawcross,2010-11-01 **Power in Verse** Jane Hedley,2010-11 English lyric poetry from Wyatt to Donne falls into three consecutive stylistic phases Tottel s Miscellany presided over the first making the lyrics of Wyatt and Surrey available for imitation by mid century poets like Barnabe Googe George

Turberville and George Gascoigne *The Shepheardes Calender* and Sidney's *Defense of Poesy* ushered in the second the Elizabethan or Golden phase of the 1580s and 1590s In the third phase Donne and Jonson reacting against the stylistic orientation of the Elizabethan poets reconceived the status of poesy and resituated the lyric for a post Elizabethan audience Chapter 7 is shared between Donne and Jonson post Elizabethan writers who used metonymy to subvert the metaphoric stance of Elizabethan poetry In a Postscript Hedley takes on the metaphysical conceit for a final demonstration of the explanatory power of Jakobson's theory of language Professor Hedley uses the semiotic theory of Roman Jakobson to create stylistic profiles for each of these three phases of early Renaissance poetry Along with the poetry itself she reexamines contemporary treatises defenses and notes of instruction to highlight key features of poetic practice She proposes that early and mid Tudor poetry is metonymic that the collective orientation of the Elizabethan poets is metaphoric and that Donne and Jonson bring metonymy to the fore once again Chapter 1 sets out the essentials of Jakobson's theory Hedley uses particular poems to show what is involved in claiming that a writer or a piece of writing has metaphoric or a metonymic basis Chapter 2 explains how the metaphoric bias of Elizabethan poetry was produced as poesy became part of England's national identity This chapter broadens out beyond the lyric to include other modes of writing whose emergence belongs to an Elizabethan moment in the history of English literature Beyond chapter 2 each chapter has a double purpose to create stylistic profile for a single poetic generation and to highlight a particular aspect or feature of the poetry as an index of difference from one generation to the next In the third chapter Hedley shows how Wyatt and Surrey used deixis metonymically to give their poems particular occasions Chapter 4 explains how the metonymic bias of the mid Tudor poets affected their use of metaphor and highlights Gascoigne's appreciation of a metaphor as a social gambit or an instrument of moral suasion Chapters 5 and 6 are centered in the Elizabethan period but with perspectives into earlier and subsequent phases of metonymic writing In chapter 5 a comprehensive discussion of the sonnet and the sonnet sequence shows how metaphoric writing cooperates with the poetic function of language Chapter 6 deals with love poetry as a social political activity whose orientation differs radically from one generation of English Petrarchists to the next
