[The School Administrator's Guide for Supporting Students from Military Families](#) Linda Jacobson,Rami Benbenishty,2012-09-28 While it is true that children from military families live unique and interesting lives it is also true that they face many challenges and special circumstances that civilian children and families don't experience These can include gaps in school attendance and learning due to frequent moves being separated from a parent who has been deployed and a sense of isolation in the midst of a civilian community This evidence informed guide introduces school

administrators to this population and offers tools to help them implement school wide programs that will support military students learning. Written in an engaging style by experts in the field this practical guide includes Profiles of principals who have created welcoming school environments for military children and parents Lessons learned from the Department of Defense Education Activity DoDEA schools A chapter on using data to improve school culture for military students A chapter on education policies that can improve circumstances for military children Research highlighting how frequent school transitions and parental deployments affect the education of military children

Children of Substance-Abusing Parents
Shulamith Lala Ashenberg Straussner, Christine Huff Fewell, 2011-05-10 Children of Substance Abusing Parents Dynamics and Treatment is a necessary reference for all mental health professionals and students who need to understand and treat this population. It offers an invaluable look at treatment options and programmatic interventions across the life span and fills an important gap in the current literature. The contributors include a wide range of experts who provide up to date evidence based clinical and programmatic strategies for working with children of alcohol and other substance abusing parents of any age and in almost any practice setting. This highly recommended book is a valuable resource for all practitioners and students concerned about this very large but often hidden group of individuals and families. From the Foreword by Sis Wenger, President, CEO National Association for Children of Alcoholics. Parental drug abuse and alcoholism have an enormously detrimental impact on children and adolescents. Children whose parents suffer from drug abuse or alcoholism often face multiple physical, mental, and behavioral issues. They are at a greater risk for depression, anxiety, low self-esteem, and addiction and also are known to have poor school attendance, difficulty concentrating, and lower IQ scores. This book offers health care practitioners proactive programs and innovative strategies to use with this vulnerable population. Taking a comprehensive life course approach, the authors discuss the implications and interventions at the prenatal stage through childhood, adolescence, young adulthood, and adulthood. With this book, social workers and health care practitioners can help assess and intervene with children of substance abusing parents. Key topics: Dynamics in families with substance abusing parents and treatment implications. Issues across the life span of children of substance abusing parents. Prevention and early intervention programs for pregnant women who abuse substances. Programs for young children, adolescents, college students, and children with incarcerated parents.
