**Sleeping Through The Fire** It is the same when people experience spiritual death because of the metaphorical fires that blind them to the things that can either save or destroy them Allen Strother's book addresses the issues that many of us deal with on a regular basis or that frequently come up in conversation Though it is nothing new the topics are presented in a way that move us out of our comfort zone and challenge us by provoking thought regarding where we stand in the social spiritual and economic climate we live in Every chapter in **Sleeping through the Fire** touches on loving our neighbor as ourselves and making God our first love This is not a how to book or an instructional book on Christianity but a book that stresses where our mind set should be which aids us in governing how we think and ultimately what we do **Correct English**, 1921

Virgil, 2016 Barry Powell acclaimed translator of the Iliad OUP 2013 and the Odyssey OUP 2014 now delivers a graceful lucid free verse translation of the most important books and passages of the Aeneid in a pleasant modern idiom On page notes explain obscure literary and historical references while the rich visual program lightens the text and educates students in the

history of Western art by presenting a single topic as represented over 2 000 years The Aeneid's first sentence charts the poem's historical plot taking us in one sweep of seven lines from Homer's Troy to Augustus Rome These two layers of time are felt all the way through the poem from the distant past of Aeneas heroic and quasi mythological time over 1100 years before Vergil down to the now of Augustus Rome when Vergil was writing the poem between 30 and 19 BC a period of ongoing political experimentation The story of Aeneas moving from one continent to another undergoing and enforcing great transformations in the process transplants contemporary Augustan preoccupations with transition continuity and change into the remote time of the poem's action In the course of the poem we move from the East to the West from Troy to Italy as Aeneas moves from being a Trojan towards being something else a kind of Roman in embryo The poem's migratory movement together with its wholesale assimilation of Homer acts out another great transition the transition of Greek culture to Italy just as the people of ancient Italy become the inheritors of Troy so the people of Vergil's Italy become the inheritors of Greece The very location of the poem in time is transitional at the pivot between myth and history the poem's characters are moving out of the era of Homer into the era of what Vergil would have considered non fabulous history In all these ways the Aeneid is a great poem of history both as lived experience and as something constructed by people responding to the needs of society Featuring a stellar up to date introduction on page notes embedded illustrations five maps a timeline of Roman history and a genealogical chart Powell's Vergil's Aeneid The Essential Books offers a full immersion into the mythological and political workings of the poem It is a book both good to think with and good to teach with
