The Ion Effect Fred Soyka, Alan Edmonds, 1978 **The Ion Effect** Fred Soyka, 1983-07-01 *The Ion Effect* Fred Soyka, Alan Denis Edmonds, 1977 Cosmic Energy and the Nature's Way in Health and Medicine Ko Paandu, 2015-09-29

This book on Cosmic Energy Health and Medicine explains about the natural energy around us in everyday life and how we can maximize its use for our health. How our health is connected with the body and mind and explains how disease is due to the disagreement between them. The book explains about allergies and compares it with an enemy. One cannot solve a problem avoiding the enemy. Same way allergy is the one you need to resolve and not avoid. The medicines used over centuries by our forefathers are proven and can be relied upon just as the reliable age old foods we consume to this day. Medicines under modern allopathic system never last even for a decade. Chemicals, herbs and minerals are not medicines. A medicine should act as an energized bullet or a piercing arrow instead of staying behind in our body and creating a host of side effects and other complications. A medicine is supposed to cure the disease of the person and not create a disease basket piling on more diseases. Only the energized medicines which are slow but steady can clear our disease in nature's speed and not the fast acting palliative medicines.

The Living Cleanse Case Adams, 2024-01-31. With the bombarding of our bodies by thousands of environmental and consumer toxins every day, most of us have realized we need to incorporate cleansing and detoxification strategies in order to maintain health. In fact, numerous health disorders have now been attributed to synthetic and environmental toxins including cancers, respiratory diseases, joint degeneration, digestive issues, skin issues, cognitive difficulties, and so many other conditions. The question now is how do we efficiently and effectively cleanse the overload of toxins from our bodies. Many recommend radical and difficult detoxification programs that can actually do more harm than good. These can stress our elimination systems and immune systems and overwhelm us with toxemia. These blitz methods of cleansing can not only be unsafe. Most are also unsustainable due to their complexity, expense, and regimented sacrifices. The author, a California Naturopath and board certified Alternative Medical Practitioner, offers us a completely different strategy, one that is not only safe, gentle, and gradual but sustainable throughout our lifetime. The Living Cleanse is a groundbreaking sustainable system that will stimulate our immune system to more efficiently break down and rid the body of toxins without over stressing our bodies and minds or require radical, difficult, expensive, and possibly unsafe methods.

FAB Health Paulette Agnew, 2018-06-05. Finally there is an answer for how to live a healthy life and heal completely without drugs. The natural world and all life exists in a matrix of light and frequency. Modern lifestyle and toxicity create disturbances in the holographic body and cellular communication, causing ill health. Water, earth, electromagnetism, and air contain the energy and blueprint to maintain perfect health. FAB Health introduces a new healing paradigm to treat Lyme superbugs and chronic diseases in a polluted world where antibiotics are failing. The emerging field of Frequency and Bioenergy. FAB medicine is real and it's possible. Paulette Agnew shares her journey through FAB medicine through her thought provoking story.

The Niagara Companion Linda L. Revie, 2010-11-22 What is it about Niagara Falls that fascinates people What draws them to it Is it love obsession or fear In *The Niagara Companion* Linda Revie searches for an answer to these questions by examining the paintings and writings about the Falls from the late seventeenth century when the first Europeans discovered Niagara to the early twentieth century Linda Revie's study considers how three centuries of representations are shaped by the earliest encounters with the waterfall and notes shifts in the construction of landscape features and in human figures both Native and European in the long history of fine art depictions Travel narratives both literary and scientific also come under her scrutiny and reveal how these chronicles were influenced by previous pictures coming out of Niagara particularly some of the first from the seventeenth century In all of these portraits and texts she notes a common pattern of response from the observers moving from anticipation to disappointment to a kind of recovery But in the end there is fear Even long after Niagara had become a tourist mecca it was often drawn as a primordial wilderness a place where civilization vies with wildness artifice with nature fear with control the natural with the mastered Throughout this history of images and narratives as humans struggle to control nature the notion of wildness prevails Those who want a deeper understanding of why Niagara Falls continues to fascinate us even today will find Linda Revie's book an excellent companion
