Dr. N. S. Sumamol

The Jigsaw Process A Way For Joyful Self Learning:

STRATEGIES FOR REFLECTIVE TEACHING PRACTICES Dr. N. S. Sumamol, 2019-06-27 A nation's progress is determined by the quality of education imparted to its citizens. Education aims at the development of the power of adaptation to the ever-changing social environment. It is the most powerful instrument whose effective use requires the strength of will, dedicated work and sacrifice. Since this instrument is in the hands of teachers, they must possess the above-mentioned qualities for its effective use. Thus, education is responsible for the development of desirable habits, skills and attitudes which make an individual a good citizen. The need of the society is always fulfilled through the education system prevailing in that society.

Understanding and Managing Children's Behaviour through Group Work Ages 3-5 Cath Hunter, 2016-04-14 Understanding and Managing Children's Behaviour through Group Work Ages 3-5 provides the reader with an insight into children's emotional well-being and helps them to understand what and how children communicate and how to respond in a way that provides positive messages, increases their emotional vocabulary and encourages them to change their behaviour. It provides an alternative and effective child-centred way of managing children's behaviour through introducing the concept of reflective language and other tools, equipping staff with new skills that are transferable across the school in any role. The book is divided into two sections enabling the reader to link theory with practice. The first section takes the reader on a journey to help them understand the different factors that influence children's behaviour. The second section of the book focuses on the group work programmes, how they can be used, their value and the impact they can have on children and the classroom environment as a whole. The activities in the group work programme explore the concept of using reflective language as a behaviour management tool and are designed to motivate, build confidence, self-esteem and resilience. Useful pedagogical features throughout the book include Practitioner and classroom management tips and reflective tasks.
