The Locomotives Of The Great Western Railway Part Eight Modern Passenger Classes:

The Locomotives of the Great Western Railway: Modern passenger classes Railway Correspondence and Travel Society,1953 GWR Locomotives: The Manor Class Allen Jackson,2019-10-15 A fascinating and lavishly illustrated guide to this iconic Great Western Railway locomotive Manor Class **Great Western Castle Class 4-6-0 Locomotives, 1923-1959** David Maidment,Bob Meanley,2023-02-16 The Great Western Castles were one of the most successful locomotive designs of the twentieth century in terms of both performance and efficiency Designed by Charles Collett in 1923 based on the 1907 Churchward Star class 155 were constructed almost continuously apart from the war years between 1923 and 1950 in addition to fifteen rebuilt Stars and one rebuilt from the Great Bear pacific Many were modernised with increased superheat and double chimneys in the late 1950s and the class continued to be the mainstay of all Western Region express passenger services to the West Country South Wales Gloucestershire Herefordshire and the West Midlands until replaced by the WR diesel hydraulic fleet in the early 1960s This book covers their design in a chapter written by Bob Meanley who masterminded the restoration at Tyseley Works of the Castles Earl of Mount Edgcumbe and Clun Castle and their history operation and performance from the high speed of the 1930s through to their rejuvenation in the 1950s leaving experience of their last years and preservation to another volume David Maidment had close experience of the class when working at Old Oak Common between 1957 and 1962 and includes his personal experiences there and on the road from his first encounter with one as a six year old boy The book includes 350 photographs some 40 in color and 23 detailed Swindon technical drawings **Great Western Railway Stars, Castles and Kings** Allen Jackson,2018-09-23 GWR Great Western Railway George Jackson Churchward Boilers Valves GWR 4 6 0 De Glehn Compound 4 4 2 Atlantic Star Class Scissors Valve Gear L London and North Western Railway WWII LNER London and North Eastern Railway LMSR London Midland and Scottish Railway Castle Class Cheltenham Spa Express King Class Shrivenham Collision 1948 Locomotive Exchanges railway preservation William Dean Swindon steam engine Belpaire locomotive firebox 5043 Earl of Mount Edgecumbe R M Deeley Lode Star North Star Dog Star Evening Star Morning Star Polar Star Red Star Rising Star Royal Star Shooting Star Western Star Swallowfield Park Knight of the Garter Knight of the Thistle Knight of the Patrick Knight of the Bath Knight of St John Knight of the Golden Fleece Knight of the Black Eagle Knight of Li ge Knight of the Grand Cross Knight Templar Knight Commander William Stanier Caerphilly Castle Caldicot Castle Cardiff Castle Carmarthen Castle Chepstow Castle Pembroke Castle Pendennis Castle Powderham Castle Warwick Castle Windsor Castle Midgham derailment King Edward VII King William IV King George IV King George III King George II King George I King William III King James II King Charles II King Charles I King James I King Edward VI King Edward VIII King Henry VII King Richard III King Edward V King Edward IV King Henry VI King Henry V King Henry IV King Richard II King Edward III King Edward II King Edward I King Henry III King John King Richard I King Henry II King Stephen steam locomotive British Railways Shakespeare Express The Bristolian

Cornish Riviera Express Cheltenham Flyer **The locomotives of the Great Western Railway. Part eight. Modern passenger classes** ,1960 *Great Western, King Class 4-6-0s* David Maidment,2020-08-30 An in depth look at the British railway company s celebrated class of steam locomotives with more than three hundred photos Built by Collett in 1927 after pressure to restore the Great Western Railway s pre eminence in motive power and cope with increasing postwar traffic to Devon and Cornwall holiday resorts the thirty Kings were the final development of the Churchward Stars and the 1923 Castles and remained on top link main line duty until their final replacement by the Western class 52 diesel hydraulics in 1962 This book includes an insight into the thinking of some of Collett s senior staff at the end of the 1930s and the eventual transformation in the latter years with redraughting and double chimneys As well as describing their design and construction the book comprehensively covers their operation and performance backed up by many recorded logs on all main GW WR routes over which they were permitted The author had close experience of the class when working at Old Oak Common between 1957 and 1962 and includes a chapter of his experiences with them including many footplate trips as a management trainee he was greeted with glee by firemen who would hand him the shovel The book also includes over 300 photographs one hundred of them in color Classic British Steam Locos compiled from Wikipedia entries and published byby DrGoogelberg,2012-06-11 do you want to know everything on steam locos how they work Read about the technology and lots of steam locos like the flying Scotsman Compiled from Wikipedia pages and published by dr Googelberg **An Introduction to Great Western Locomotive Development** Jim Champ,2018-02-28 The first thought when contemplating a new study of the Great Western Railway locomotive fleet must surely be to ask what can there be left to say But there is no single source which gives a general introduction to the Great Western locomotive fleet There are monographs on individual classes an excellent multi volume detail study from the RCTS and superb collections of photographs but nothing that brings it all together This work is intended to provide that general introduction The volume begins with a series of short essays covering general trends in design development whilst the main body of the volume covers individual classes For each class there is a small table containing some principal dimensions and paragraphs of text covering an introduction renumbering key changes in the development of the class and information on withdrawal The volume concludes with appendices covering the development and types of standard boilers the various numbering schemes used by the GWR the arcane subject of locomotive diagrams and lot numbers and a short reference on the many lines the GWR engulfed The majority of illustrations are new profile drawings to a consistent format Described as sketches they are drawn to a consistent scale but do not claim to be scale drawings Much minor equipment has been omitted and the author has certainly not dared to include rivets Although most are based around GWR weight diagrams they are not simple traces of the original drawings Detail has been added from other sources components copied from different drawings and details have been checked against historical and modern photographs One must also bear in mind that steam locomotives were not mass produced Minor fittings frequently varied in

position and changes were made over the locomotives lifetimes Nevertheless this collection of drawings provides a uniquely consistent view of the GWR locomotive fleet *Workhorses of the Big Four* John Evans,2016-08-15 John Evans explores the key locomotives involved in the last days of steam **The Locomotives of the Great Western Railway: The rail motor vehicles and internal combustion locomotives** Railway Correspondence and Travel Society,1952
