Unhuman Culture Daniel Cottom,2013-05-23 It is widely acknowledged that the unhuman plays a significant role in the definition of humanity in contemporary thought It appears in the thematization of the Other in philosophical psychoanalytic anthropological and postcolonial studies and shows up in the antihumanism associated with figures such as Heidegger Foucault and Derrida One might trace its genealogy as Freud did to the Copernican Darwinian and psychoanalytic revolutions that displaced humanity from the center of the universe Or as Karl Marx and others suggested one might lose human identity in the face of economic technological political and ideological forces and structures With dazzling breadth wit and intelligence Unhuman Culture ranges over literature art and theory ancient to postmodern to explore the ways in which contemporary culture defines humanity in terms of all that it is not Daniel Cottom is equally at home reading medieval saints lives and the fiction of Angela Carter plumbing the implications of Napoleon s self coronation and the attacks of 9 11 considering the paintings of Pieter Bruegel and the plastic surgery as

performance of the body artist Orlan For Cottom the unhuman does not necessarily signify the inhuman in the sense of conspicuous or extraordinary cruelty It embraces too the superhuman the supernatural the demonic and the subhuman the supposedly disjunctive animal vegetable and mineral kingdoms the realms of artifice technology and fantasy It plays a role in theoretical discussions of the sublime personal memoirs of the Holocaust aesthetic reflections on technology economic discourses on globalization and popular accounts of terrorism Whereas it once may have seemed that the concept of culture always by definition pertained to humanity it now may seem impossible to avoid the realization that we must look at things differently It is not only art in the narrow sense of the word that we must recognize as unhuman For better or worse ours is now an unhuman culture
