*The Irish Question* Hamish Macdonald, 1985      *The Blackwell Guide to Literary Theory* Gregory Castle, 2009-02-04 This student friendly text introduces students to the history and scope of literary theory as well as showing them how to perform literary analysis Designed to be used alongside primary theoretical texts as an introduction to theory or alongside literary texts as a model for performing literary analysis Presents a series of exemplary readings of particular literary texts such as *Jane Eyre* *Heart of Darkness* *Ulysses* *To the Lighthouse* and *Midnight's Children* Provides a brief history of the rise of literary theory in the twentieth century in order that students understand the historical contexts for different theories Presents an alphabetically organized series of entries on key figures and publications from Adorno to i ek Features descriptions of the major movements in literary theory from critical theory through to postcolonial theory      **Studies**, 1986 An Irish quarterly review      *Understanding History Book 2 (Reform, Expansion, Trade and Industry)* John Child, Paul Shuter, 1992 The second of a three part series which aims to provide a complete history course for the whole of Key Stage 3 of the National Curriculum A teacher's set including photocopiable worksheets accompanies each pupil book      *A History of Ireland, 1800-1922* Hilary Larkin, 2014-02-01 The years of Ireland's union with Great Britain are most often regarded as a period of great turbulence and conflict And so they were But there are other stories too and these need to be integrated in any account of the period Ireland's progressive primary education system is examined here alongside the Famine the growth of a happily middle class Victorian suburbia is taken into account as well as the appalling Dublin slum statistics In each case neither story stands without the other This study synthesises some of the main scholarly developments in Irish and British historiography and seeks to provide an updated and fuller understanding of the debates surrounding nineteenth and early twentieth century history      *Modernisation, Crisis and Culture in Ireland, 1969-1992* Conor McCarthy, 2000 This book offers a series of readings in Irish culture in the light of the set of crises that beset the project of modernization in Ireland from the late 1960s onwards These crises are argued to have contributed to a crisis of representation that has afflicted a variety of intellectuals novelists playwrights filmmakers and literary critics McCarthy locates the source of this problem in the overly narrow conceptualization of modernization and modernity that has held sway in Irish intellectual life since the 1960s and in a lack of attention paid to the negative aspects of the processes of modernization In particular McCarthy points to the need to find a more nuanced response to the legacies of nationalism as we move into the 21st century      **The Catholic Periodical and Literature Index**, 2002      *B.H. Blackwell* B.H. Blackwell Ltd, 1926      **Ireland and the Irish in Interwar England** Mo Moulton, 2014-04-03 To what extent did the Irish disappear from English politics life and consciousness following the Anglo Irish War Mo Moulton offers a new perspective on this question through an analysis of the process by which Ireland and the Irish were redefined in English culture as a feature of personal life and civil society rather than a political threat Considering the Irish as the first postcolonial minority she argues that the Irish case demonstrates an English solution to the larger

problem of the collapse of multi ethnic empires in the twentieth century Drawing on an array of new archival evidence Moulton discusses the many varieties of Irishness present in England during the 1920s and 1930s including working class republicans relocated southern loyalists and Irish enthusiasts The Irish connection was sometimes repressed but it was never truly forgotten this book recovers it in settings as diverse as literary societies sabotage campaigns drinking clubs and demonstrations **International Index to Periodicals** ,1924 **The Cambridge History of Ireland: Volume 2, 1550-1730**

Jane Ohlmeyer,2018-03-31 This volume offers fresh perspectives on the political military religious social cultural intellectual economic and environmental history of early modern Ireland and situates these discussions in global and comparative contexts The opening chapters focus on Politics and Religion and War and offer a chronological narrative informed by the re interpretation of new archives The remaining chapters are more thematic with chapters on Society Culture and Economy and Environment and often respond to wider methodologies and historiographical debates Interdisciplinary cross pollination between on the one hand history and on the other disciplines like anthropology archaeology geography computer science literature and gender and environmental studies informs many of the chapters The volume offers a range of new departures by a generation of scholars who explain in a refreshing and accessible manner how and why people acted as they did in the transformative and tumultuous years between 1550 and 1730 **The State of Loyalism in Northern Ireland** G. Spencer,2008-03-07 The State of Loyalism in Northern Ireland examines the changes and developments within parliamentary loyalism throughout the Northern Ireland peace process Drawing from interviews with key players it charts the drama of tensions debates and negotiations and provides a compelling inside account

Organizational Project Management Ralf Müller,Nathalie Drouin,Shankar Sankaran,2019 This concise text introduces an integrated view of all project management related activities in an organization called Organizational Project Management OPM Practical cases from several organizations as well as popular theories such as the Resource Based Theory and Institutional Theory provide for an insightful yet realistic understanding of OPM as an integrative tool for organizations to improve their efficiency and effectiveness The Ordnance Survey and Modern Irish Literature Cólín Parsons,2016-04-14 The Ordnance Survey and Modern Irish Literature offers a fresh new look at the origins of literary modernism in Ireland tracing a history of Irish writing through James Clarence Mangan J M Synge W B Yeats James Joyce and Samuel Beckett Beginning with the archives of the Ordnance Survey which mapped Ireland between 1824 and 1846 the book argues that one of the sources of Irish modernism lies in the attempt by the Survey to produce a comprehensive archive of a land emerging rapidly into modernity The Ordnance Survey instituted a practice of depicting the country as modern fragmented alienated and troubled both diagnosing and representing a landscape burdened with the paradoxes of colonial modernity Subsequent literature returns in varying ways both imitative and combative to the complex representational challenge that the Survey confronts and seeks to surmount From a colonial mapping project to an engine of nationalist imagining and finally a

framework by which to evade the claims of the postcolonial nation the Ordnance Survey was a central imaginative source of what makes Irish modernist writing both formally innovative and politically challenging Drawing on literary theory studies of space the history of cartography postcolonial theory archive theory and the field Irish Studies The Ordnance Survey and Modern Irish Literature paints a picture of Irish writing deeply engaged in the representation of a multi layered landscape

**Historical Dictionary of the United Kingdom** Kenneth John Panton, Keith A. Cowlard, 1997 These dictionaries include prominent personalities events and institutions in these countries It also details noteworthy places and aspects of the countrys economic social and cultural life It gives an overview of geography and history of the country a chronology lists of monarchs prime ministers maps and more [Historical Abstracts](#) , 1991 *Legal History in the Curriculum* Caroline Derry, Carol Howells, 2025-06-30 As legal education faces fresh challenges and opportunities and a growing literature calls for subversive new approaches this book engages with vital questions about the place of history in the law school How and why should we teach legal history What is its place in the curriculum What can different jurisdictions learn from each other This collection offers an overview and examples of cutting edge practice in teaching legal history across the law curriculum challenging expectations of its place and potential The book s three sections explore practices and possibilities in the core curriculum in dedicated legal history courses and in law schools across the world They highlight how legal history offers diverse and inclusive content global perspectives and transnational understandings to students By exploring contributors own purposes and practices they provide insight and fresh ideas on how and why readers can incorporate legal histories into their own teaching The volume will be an invaluable resource for all those involved in the teaching of law and the law school curriculum

**Money and the Making of the American Revolution** Andrew David Edwards, 2025-12-02 A new interpretation of the American Revolution as a transformative monetary contest American money and American democracy have always been in tension pitting political equality against economic inequality In *Money and the Making of the American Revolution* Andrew David Edwards shows how this struggle emerged in America s founding era Everyone knows that the founders waged a revolt against taxation without representation Edwards shows that the dispute over taxes was really a dispute over money what it was who could make it and how to keep it from being used at the expense of the colonists in North America The colonial rebels refocused their resistance on democratic local control defending the power they had used to make money for themselves Edwards s narrative spans four continents linking the problems of money and revolt in early America to the transatlantic slave trade the disastrous mismanagement of the East India Company in India and violence against Native Americans His analysis emerges from the story itself through the lives of individuals ranging from John Blackwell Oliver Cromwell s one time war treasurer to Thomas Paine the impassioned pamphleteer of the American Revolution Edwards argues that as the republican vision of an agrarian independent monetary system faded the leaders of the Revolution tied the nation to capitalism and imperialism at its founding The colonists may have won the battle for

representation but the money that underpinned European empire had established a stronghold in the new republic Money and the Making of the American Revolution offers both an ambitious new interpretation of the Revolution and a fascinating story about the power of economic ideas

*A Treatise on Northern Ireland, Volume I* Brendan O'Leary, 2019-04-04 This first volume in *A Treatise on Northern Ireland* illuminates how British colonialism shaped the formation and political cultures of what became Northern Ireland and the Irish Free State Contrasting colonial and sectarianized accounts of modern Irish history Brendan O'Leary shows that a judicious meld of these perspectives provides a properly political account of direct and indirect rule and of administrative and settler colonialism The British state incorporated Ulster and Ireland into a deeply unequal Union after four reconquests over two centuries had successively defeated the Ulster Gaels the Catholic Confederates the Jacobites and the United Irishmen and their respective European allies Founded as a union of Protestants in Great Britain and Ireland rather than of the British and the Irish nations the colonial and sectarian Union was infamously punctured in the catastrophe of the Great Famine The subsequent mobilization of Irish nationalists and Ulster unionists and two republican insurrections amid the cataclysm and aftermath of World War I brought the now partly democratized Union to an unexpected end aside from a shrunken rump of British authority baptized as Northern Ireland Home rule would be granted to those who had claimed not to want it after having been refused to those who had ardently sought it The failure of possible federal reconstructions of the Union and the fateful partition of the island are explained and systematically compared with other British colonial partitions Northern Ireland was invented in accordance with British interests to resolve the hereditary animosities between the descendants of Irish natives and British settlers in Ireland In the long run the invention proved unfit for purpose Indispensable for explaining contemporary institutions and mentalities this volume clears the path for the intelligent reader determined to understand contemporary Northern Ireland

**The Muslim Problem** Ismail Adam Patel, 2021-12-16 This book explains the increasing incidences and normalisation of Islamophobia by analysing the role of signifiers of free speech censorship and fatwa during the Satanic Verses affair in problematising the figure of the Muslim Ismail Patel develops the notion of Islamophobia not as a continuation of the antagonistic relation from the British Empire but as a postcolonial reformulation of the figure of the Muslim The book views Islamophobia studies as a paradigm engages in the debate of Islamophobia as a global phenomenon investigates the contestation over its definition and challenges the view of Islamophobia as a reserve of the far right It assesses the debate around the concept of identity and shows how the colonised figure of the Muslim provided significance in constructing British imperial identity Providing a decolonial counter Islamophobia approach that challenges Britishness exclusionary white symbolic content the book calls for a liberating idea of Britishness that promotes a post racist rather than a post race society Theoretically rich in analysis this book will contribute to discussions of identity formation Britishness Islamophobia and counter Islamophobia It will be of use to students and researchers across history politics sociology cultural studies literary studies and anthropology
