Alschuler, 1998-03-11 An important contribution to the increasingly topical debate over which development strategies work best for newly industrializing countries This new edition of a highly successful book not previously available in paperback offers a thorough and up to date assessment of development theories leading to clear policy prescriptions There are two completely new chapters on the current debate on the East Asian Model and the different development path taken in Latin America and on the New Comparative Political Economy Alschuler demonstrates that a new conceptual framework incorporating features of dependency theory and world system analysis is needed in order to capture the complex interaction between multinationals development strategies and class alliances and their impact on development **The Peasant Cotton Revolution in West Africa** Thomas J. Bassett, 2006-03-30 The literature of Africa is dominated by accounts of crisis and gloom But Thomas Bassett a distinguished American geographer well known in the field of development tells an unusual story of the growth of the cotton economy of West Africa One of the few long running success stories in African development change was brought about by tens of thousands of small scale peasant farmers While the introduction of new strains of cotton in French West Africa was in part a result of agronomic research by French scientists supported by an unusually efficient marketing structure this is not a case of triumphant top down planification Employing the case of C te d Ivoire Professor Bassett shows agricultural intensification to result from the cumulative effect of decades of incremental changes in farming techniques and social organization A significant contribution

But can they survive and are they compatible with renewed economic growth Richard Sandbrook answers these questions and assesses the feasibility of the new political programme in reinforcing Africa's economic recovery He argues that the programme has merit in the short term but in the longer term a more self-reliant state directed approach should be adopted to ensure prosperity and durable democracy in the region
