The Irish Sea Aspects Of Maritime History:

The Irish Sea Michael McCaughan, John Appleby, 1989 These essays range in time from the Viking age to the present day and include studies on trade shipping shipbuilding fishing and smuggling besides consideration of the geographical context and sources for regional maritime history Dust jacket

Ireland and the War at Sea, 1641-1653 Elaine Murphy, 2012 An examination of the mid seventeenth century maritime battles between Ireland England and Scotland showing them to have had a dramatic impact on the overall conflict The conflict on the Irish seaboard between the years 1641 and 1653 was not some peripheral theatre in the Wars of the Three Kingdoms As this first full length study of the war at sea on the Irish coast from the outbreak of the Ulster rising in 1641 to the surrender of Inishbofin Island the last major royalist maritime outpost in April 1653 shows it was instead the epicentre of naval conflict with important consequences for the nature and outcome of the land conflicts in Ireland and elsewhere The book provides a clear and comprehensive narrative account of the war at sea accompanied by careful contextualisation and a full analysis of its Irish British and European dimensions This includes the strategic importance of Irish ports conflict between organised navies and formidable bands of privateers and pirates the adoption of new naval technologies and tactics and the relationship between conflict onland and sea Moving beyond traditional accounts of naval campaigns it integrates warfare at sea into the wider dimension of political and economic developments in Ireland England and Scotland Extensive use is made of a wide range of archival material in particular the High Court of Admiralty papers held in the National Archives at Kew Dr Elaine Murphy is Lecturer in Maritime Naval History Plymouth University

The Maritime World of Early Modern Britain Richard Blakemore, James Davey, 2025-10-01 Britain s emergence as one of Europe s major maritime powers has all too frequently been subsumed by nationalistic narratives that focus on operations and technology This volume by contrast offers a daring new take on Britain s maritime past It brings together scholars from a range of disciplines to explore the manifold ways in which the sea shaped British history demonstrating the number of approaches that now have a stake in defining the discipline of maritime history The chapters analyse the economic social and cultural contexts in which English maritime endeavour existed as well as discussing representations of the sea The contributors show how people from across the British Isles increasingly engaged with the maritime world whether through their own lived experiences or through material culture The volume also includes essays that investigate encounters between English voyagers and indigenous peoples in Africa and the intellectual foundations of imperial ambition

The Seaforth Bibliography Eugene Rasor, 2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a

listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side

Ireland's Sea Fisheries, 1400-1600 Patrick W. Hayes, 2023 This book examines the environmental political and economic history of Ireland's marine fisheries from 1400 to 1600 It combines a wide range of historical sources with innovative digital research methods to provide a comprehensive and systematic overview Government letters and court documents highlight the diverse range of fishing fleets from across Europe that visited Irish waters in the early sixteenth century bringing wealth and cultural influence to the native Irish who developed complex systems to protect and tax the visitors Furthermore trade records illustrate that fish was Ireland's premier export in the late fifteenth and early sixteenth centuries However a range of factors led to the industry's collapse by the end of the sixteenth century the Tudor conquest which disrupted fishing operations and fundamentally altered who controlled fishing resources the destabilization of Irish waters resulting from the terrestrial conflict which allowed pirates to thrive an influx of cheap cod from the newly exploited fisheries in Newfoundland which changed consumption patterns in Ireland and across Europe and shifting climatic conditions and decades of over exploitation which meant fewer fish and poorer catches Overall the book reveals that fisheries form a vital part of the broader environmental political and economic history of Ireland

The Cambridge History of Ireland: Volume 3, 1730-1880 James Kelly, Thomas Bartlett, 2018-04-26 The eighteenth and nineteenth centuries was an era of continuity as well as change Though properly portrayed as the era of Protestant Ascendancy it embraces two phases the eighteenth century when that ascendancy was at its peak and the nineteenth century when the Protestant elite sustained a determined rear guard defence in the face of the emergence of modern Catholic nationalism Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy society population emigration religion language state formation culture art and architecture and the Irish abroad It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty first century

A Select Bibliography of British and Irish University Theses about Maritime History, 1792-1990 David M. Williams, Andrew P. White, 2017-10-18 This book provides a bibliography of a wide scope of British and Irish post graduate theses of maritime economic and social history Its intent is to make these informative under utilised texts more accessible for scholars in response to the deep expansion of subject as a historical discipline It aims to keep these texts often unpublished from lapsing

into obscurity The author takes a broad approach to the subject area including strands more particular to science than the humanities and history as recent as the year of publication intending the resource to be as comprehensive as possible and of maximum use to present and future scholars The material is primarily gathered and cross referenced from Roger R Bilboul s Restrospective Index to Theses of Great Britain and Ireland 1716 1950 the ASLIB Index and the Institute of Historical Research of the University of London Each entry comprises Surname Thesis Title truncated for length where necessary Degree Awarded Awarding Institution and Date The database comprises 2500 entries subdivided into twenty five sections concerning the shipping business and all commercial mercantile aspects of operation exploration cartography and navigation shipping and shipbuilding technologies docks and harbours maritime labour maritime medical issues naval history piracy privateering international relations maritime law pollution and the maritime environment fishing sea port communities culture literature and art maritime economics marine architecture coastal planning tourism and off shore oil The sections are further subdivided by location and a geographical index is included for ease of reference The author assures that the majority of theses are readily accessible

English/British Naval History to 1815 Eugene L. Rasor, 2004-10-30 The English British have always been known as the sailor race with hearts of oak the Royal Navy as the Senior Service and First Line of Defense It facilitated the motto The sun never set on the British Empire The Royal Navy has exerted a powerful influence on Great Britain its Empire Europe and ultimately the world This superior annotated bibliography supplies entries that explore the influence of the English British Navy through its history This survey will provide a major reference guide for students and scholars at all levels It incorporates evaluative qualitative and critical analysis processes the essence of historical scholarship Each one of the 4 124 annotated entries is evaluated assessed analyzed integrated and incorporated into the

historiographical scholarship **Allegory, Space and the Material World in the Writings of Edmund Spenser**

Christopher Burlinson, 2006 An examination of the way in which the material world is depicted in The Faerie Queene This book provides a radical reassessment of Spenserian allegory in particular of The Faerie Queene in the light of contemporary historical and theoretical interests in space and material culture It explores the ambiguous and fluctuating attention to materiality objects and substance in the poetics of The Faerie Queene and discusses the way that Spenser s creation of allegorical meaning makes use of this materiality and transforms it It suggests further that a critical engagement with materiality which has been so important to the recent study of early modern drama must come in the case of allegorical narrative through a study of narrative and physical space and in this context it goes on to provide a reading of the spatial dimensions of the poem quests and battles forests castles and hovels and the spatial characteristics of Spenser s other writings The book reaffirms the need to place Spenser in his historical contexts philosophical and scientific military and architectural in early modern England Ireland and Europe but also provides a critical reassessment of this literary historicism Dr CHRISTOPHER BURLINSON is a Research Fellow in English at Emmanuel College Cambridge

International Handbook of Underwater Archaeology Carol V. Ruppe, Jane F. Barstad, 2013-11-11 Although underwater archaeology has assumed its rightful place as an important subdiscipline in the field the published literature has not kept pace with the rapid increase in the number of both prehistoric and historic underwater sites The editors have assembled an internationally distinguished roster of contributors to fill this gap In addition to both geographical and topical approaches the chapters also focus on technology law public and private institutional roles and goals and the research and development of future technologies and public programs Coastal Works Nicholas Allen, Nick Groom, Jos Smith, 2017-07-04 In all the complex cultural history of the islands of Britain and Ireland the idea of the coast as a significant representative space is critical For many important artists coastal space has figured as a site from which to braid ideas of empire nation region and archipelago They have been drawn to the coast as a zone of geographical uncertainty in which the self definitions of the nation founder they have been drawn to it as a peripheral space of vestigial wildness of island retreats and experimental living as a network of diverse localities richly endowed with distinctive forms of cultural heritage and as a dynamically interconnected ecosystem which is at the same time the historic site of significant developments in fieldwork and natural science This collection situates these cultures of the Atlantic edge in a series of essays that create new contexts for coastal study in literary history and criticism The contributors frame their research in response to emerging conversations in archipelagic criticism the blue humanities and island studies the essays challenging the reader to reconsider ideas of margin periphery and exchange These twelve case studies establish the coast as a crucial location in the imaginative history of Britain Ireland and the north Atlantic edge Coastal Works will appeal to readers of literature and history with an interest in the sea the environment and the archipelago from the 18th century to the present Accessible innovative and provocative Coastal Works establishes the important role that the coast plays in our cultural imaginary and suggests a range of methodologies to represent relationships between land sea and cultural work A New History of Ireland, Volume II Art Cosgrove, 2008-11-06 A New History of Ireland is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the Middle Ages down to the present day Volume II opens with a character study of medieval Ireland and a panoramic view of the country c 1169 followed by nineteen chapters of narrative history with a survey of Land and People c 1300 There are further chapters on Gaelic and colonial society economy and trade literature in Irish French and English architecture and sculpture manuscripts and illuminations and coinage A New History of Ireland, Volume III T. Andrew McDonald, 2020-05-28 The archipelagic kingdoms of Man and the Isles that flourished from the last quarter of the eleventh century down to the middle of the thirteenth century represent two forgotten kingdoms of the medieval British Isles They were ruled by powerful individuals with unquestionably regnal status who interacted in a variety of ways with rulers of surrounding lands and who left their footprint on a wide range of written documents and upon the very landscapes and seascapes of the islands they ruled Yet British history has tended to overlook these Late Norse maritime empires which thrived for two centuries on the Atlantic frontiers of Britain This book represents the first ever overview of both Manx and Hebridean dynasties that dominated Man and the Isles from the late eleventh to the mid thirteenth centuries Coverage is broad and is not restricted to politics and warfare An introductory chapter examines the maritime context of the kingdoms in light of recent work in the field of maritime history while subsequent chronological and narrative chapters trace the history of the kingdoms from their origins through their maturity to their demise in the thirteenth century Separate chapters examine the economy and society church and religion

power and architecture The Brandy Trade Under the Ancien Régime L. M. Cullen, Louis Cullen, 2002-06-20 In this 1998 study of the brandy trade and its merchants Professor Cullen explores the development of cognac the world's most famous spirit product which emerged as a consequence of a chronic wine surplus While Professor Cullen focuses on the brandy trade his findings contradict the view of a static French economy in the eighteenth century Professor Cullen shows that the brandy trade was based on a sophisticated regional economy which by 1720 had become a key component of French involvement in the modern international trading system Notwithstanding the competition supplied by the emergence of surplus in other cereals and by foreign markets regional specialisation in the Charente was an indispensable element in ensuring the quality of stable output and was recognised in the region's success in attracting foreign negociants such as the household names of Martell and Hennessy *Irish Economic and Social History* ,1999
