The Island of Dr. Moreau H. G. Wells, Dr. John L. Flynn, 2014-06-03 A cautionary tale of the horrors that can ensue when man experiments with nature from the father of science fiction, H. G. Wells. A lonely island in the Pacific. The sinister scientist who rules it. And the strange beings who dwell there. This is the scenario for H. G. Wells's haunting classic, one of his most intriguing and visionary novels. Living in the late nineteenth century and facing the impact of Darwin's theory of evolution, Wells wrote this chilling masterpiece about the characteristics of beasts blurring as the animals turn into men. Dr. Moreau, a scientist expelled from his homeland for his cruel

vivisection experiments finds a deserted island that gives him the freedom to continue torturous transplantations and create hideous creatures with manlike intelligence But as the brutally enforced order on Moreau s island dissolves the true consequences of his experiments emerge and his creations revert to beasts more shocking than nature could devise A genius of his time H G Wells foresaw the use of what he called the atom bomb the practice of gene splicing and men landing on the moon Now when these have become part of everyday life his dark fable serves as a compelling reminder of the horrors that reckless experiments with nature can produce With an Introduction by Nita A Farahany and an Afterword by Dr John L Flynn

Extrait: Suddenly we heard a yelp and a volley of furious blasphemy from the companion hatchway and the deformed man with the black face came up hurriedly. He was immediately followed by a heavy red-haired man in a white cap. At the sight of the former, the staghounds who had all tired of barking at me by this time became furiously excited, howling and leaping against their chains. The black hesitated before them and this gave the red-haired man time to come up with him and deliver a tremendous blow between the shoulder blades. The poor devil went down like a felled ox and rolled in the dirt among the furiously excited dogs. It was lucky for him that they were muzzled. The red-haired man gave a yawp of exultation and stood staggering and as it seemed to me in serious danger of either going backwards down the companion hatchway or forwards upon his victim. So soon as the second man had appeared, Montgomery had started forward. Steady on there, he cried in a tone of remonstrance. A couple of sailors appeared on the fore-castle. The black-faced man howling in a singular voice rolled about under the feet of the dogs. No one attempted to help him. The brutes did their best to worry him, butting their muzzles at him. There was a quick dance of their lithe grey figured bodies over the clumsy prostrate figure. The sailors forward shouted as though it was admirable sport. Montgomery gave an angry exclamation.
