The Encyclopedic Sourcebook of New Age Religions James R. Lewis, 2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon

Self Observation Red Hawl, 2012-07-23 This book is an in depth examination of the much needed process of self study known as self observation We live in an age where the attention function in the brain has been badly damaged by TV and computers up to 90 percent of

the public under age 35 suffers from attention deficit disorder This book offers the most direct non pharmaceutical means of healing attention dysfunction The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships This is also an age when humanity has lost its connection with conscience When humanity has poisoned the Earth s atmosphere water air and soil when cancer is in epidemic proportions and is mainly an environmental illness the author asks What is the root cause And he boldly answers Failure to develop conscience Selfobservation he asserts is the most ancient scientific and proven means to develop this crucial inner guide to awakening and a moral life This book is for the lay reader both the beginner and the advanced student of self observation No other book on the market examines this practice in such detail There are hundreds of books on self help and meditation but almost none on self study via self observation and none with the depth of analysis wealth of explication and richness of experience which this book offers Red Hawk author of 5 collections of poetry was the Hodder Fellow at Princeton University 1992 93 and is currently a full professor at the University of Arkansas Monticello He has practiced self observation for over 30 years under the guidance of the Gurdjieff Society of Arkansas meditation master Osho Rajneesh and spiritual teacher Lee Lozowick

Self Remembering Red Hawk, 2015-05-11 With hundreds of books on the market today urging readers to develop mindfulness pointing to the condition of awakening that most religious philosophical traditions aim toward this new addition by Red Hawk stands head and shoulders above the crowd It offers detailed practical guidelines that allow one to know with certainty not from imagination theory thought or lying when one is Present and Awake it details the objective feedback mechanisms available to everyone for attaining this certainty Am I awake now How do I know Sincere readers will find that help in answering these two questions is invaluable and life changing Written from the perspective of a practitioner of more than thirty years one who has studied the significant work of his predecessors received instruction from two spiritual masters Osho Rajneesh and Mister Lee Lozowick and trained rigorously within daily life This book is the first detailed examination of the Practice of Presence called self remembering in the Gurdjieff tradition The author s aim is to give general guidelines in this practice discuss its implications and then offer specific instruction Self Remembering The Path to Non Judgmental Love is meant to be a companion piece volume ii to the author s previous book Self Observation The Awakening of Conscience which is fast becoming a classic Taken together they present the most detailed examination of the practice available in English He clearly points out that self remembering is only one half of a foundational spiritual practice called self observation self remembering Where other authors teachers have gone wrong in the past is to take only one half of this practice and consider it the whole entire unto itself Mister Gurdjieff s student A R Orage 1873 1934 made this mistake with self observation contemporary teacher Robert Burton made a similar error with his book also titled Self Remembering While P D Ouspensky speaks of the practice of self remembering in his seminal book In Search of the Miraculous and Rodney Collin in The Theory of Celestial Influence there has not been a book length study on self remembering that examines the practice

from the many angles that Red Hawk s does His chapters cover such diverse yet integrated topics as The Removal of Self Importance Kaya Sadhana or the wisdom of the body and Separation Grief i e addressing the terror of our current situation without denial or dramatics Gurdjieff Kathleen Riordan Speeth,Ira Friedlander,1980 *The Book of Enlightened Masters* Andrew Rawlinson,1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson callsspiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others **Mime and Beyond** Samuel Avital,1985
