The Logic Of Affect:

The Logic of Affect Paul Redding, 2019-04-15 Most attempts to trace the roots of current scientific approaches to the mind have ignored the contributions of post Kantian German idealism Paul Redding here shows the relevance of this philosophical tradition to an understanding of the mind and its embodiment as well as the relation of feeling to cognition Redding observes how Fichte Schelling and Hegel struggled with the problem of reconciling Kant's normative approach to experience and thought with the naturalistic stance of the emerging medical sciences A century later William James Freud and Jung also addressed the interconnection of thought and feeling reaching views similar to those of the post Kantian idealists In particular Redding argues the idealists conceived of a logic of affect that reemerged in Freud's concept of the primary process and in modern evolutionary ideas of subcortical processing This innovative book demonstrates how new insights can be brought to the study of mentality and consciousness by considering previously overlooked interpretations Redding shows that these early theorists of the unconscious can bring scholars to a better appreciation not only of classical thinkers like James and Freud but also of contemporary debates about the mind and emotions

unexplored areas of the interpersonal relationships between domestic and care workers and their employers *The Affect Theory Reader 2* Gregory J. Seigworth, Carolyn Pedwell, 2023-09-15 Building on the foundational Affect Theory Reader this new volume gathers together contemporary scholarship that highlights and interrogates the contemporary state of affect inquiry Unsettling what might be too readily taken for granted assumptions in affect theory The Affect Theory Reader 2 extends and challenges how contemporary theories of affect intersect with a wide range of topics and fields that include Black studies queer and trans theory Indigenous cosmologies feminist cultural analysis psychoanalysis and media ecologies It foregrounds vital touchpoints for contemporary studies of affect from the visceral elements of climate emergency and the sensorial sinews of networked media to the minor feelings entangled with listening looking thinking writing and teaching otherwise Tracing affect's resonances with today's most critical debates The Affect Theory Reader 2 will reorient and disorient readers to the past present and future potentials of affect theory Contributors Lauren Berlant Lisa Blackman Rizvana Bradley Ann Cvetkovich Ezekiel J Dixon Román Adam J Frank M Gail Hamner Omar Kasmani Cecilia Macón Hil Malatino Erin Manning Derek P McCormack Patrick Nickleson Susanna Paasonen Tyrone S Palmer Carolyn Pedwell Jasbir K Puar Jason Read Michael Richardson Dylan Robinson Tony D Sampson Kyla Schuller Gregory J Seigworth Nathan Snaza Kathleen Stewart Elizabeth A Wilson *The Transmission of Affect* Teresa Brennan, 2014-02-15 The idea that one can soak up someone else's depression or anxiety or sense the tension in a room is familiar Indeed phrases that capture this notion abound in the popular vernacular negative energy dumping you could cut the tension with a knife The Transmission of Affect deals with the belief that the emotions and energies of one person or group can be absorbed by or can enter directly into another The ability to borrow or share states of mind once historically and culturally assumed is now pathologized as Teresa Brennan shows in relation to affective transfer in psychiatric clinics and the prevalence of psychogenic illness in contemporary life To neglect the mechanism by which affect is transmitted the author claims has serious consequences for science and medical research Brennan's theory of affect is based on constant communication between individuals and their physical and social environments Her important book details the relationships among affect energy and new maladies of the soul including attention deficit disorder chronic fatigue syndrome codependency and fibromyalgia **Gilles Deleuze's Luminous Philosophy** Hanjo Berressem, 2020-05-28 Engaging the whole body of Deleuze's work including less rehearsed texts such as *The Actual and the Virtual* *Lucretius and the Simulacrum* and his lectures on Spinoza Hanjo Berressem traces the line of light that runs through Deleuze's thought **Rape and the Criminal Trial** Anna Carline, Clare Gunby, Jamie Murray, 2020-03-23 This book explores the shortcomings of the criminal justice system's response to sexual violence Despite a plethora of legal and policy reforms concerns remain regarding the conviction rates for rape and the extent to which cases fall out of the system Ample research has highlighted the ongoing impact of rape myths and the presence of an implementation gap whereby policies provisions and measures proposed in order to improve the system's response are

frequently not brought into practice nor utilised as expected Rape and the Criminal Trial proposes a move beyond representational theory and towards New Materialism and affects a school of thought which emphasises the importance of embodiment and the ontological intensive regime as necessary in order to generate radical new approaches for understanding this problematic status quo and in order to move forward to the production of more effective solutions
