The Logic Of The Cultural Sciences Five Studies:

The Logic of the Cultural Sciences Ernst Cassirer, 2000 This new translation of The Logic of the Cultural Sciences formerly entitled The Logic of the Humanities makes Ernst Cassirer's classic study long out of print available to English readers A German Jew living in exile at the beginning of the Second World War Cassirer wrote this book one of his clearest and most concise in response to the crises besetting his era It represented to him a rethinking and completion of his magnum opus The Philosophy of Symbolic Forms S G Lofts's translation stays close to the original German and accurately reflects the echoes of the philosophical debates of Cassirer's day In the book's five linked studies Cassirer considers the intellectual structure of the disciplines we commonly refer to as the humanities He defines and justifies the basic philosophical perspective of the philosophy of symbolic forms and he contributes a wealth of ideas to continuing debates about culture and what is unique in human nature

Ernst Cassirer Edward Skidelsky, 2011-10-24 This is the first English language intellectual biography of the German Jewish philosopher Ernst Cassirer 1874-1945 a leading figure on the Weimar intellectual scene and one of the last and finest representatives of the liberal idealist tradition Edward Skidelsky traces the development of Cassirer's thought in its historical and intellectual setting He presents Cassirer the author of The Philosophy of Symbolic Forms as a defender of the liberal ideal of culture in an increasingly fragmented world and as someone who grappled with the opposing forces of scientific positivism and romantic vitalism Cassirer's work can be seen Skidelsky argues as offering a potential resolution to the ongoing conflict between the two cultures of science and the humanities and between the analytic and continental traditions in philosophy The first comprehensive study of Cassirer in English in two decades this book will be of great interest to analytic and continental philosophers intellectual historians political and cultural theorists and historians of twentieth century Germany

Are Cyborgs Persons? Aleksandra Łukaszewicz Alcaraz, 2020-12-22 This book presents argumentation for an evolutionary continuity between human persons and cyborg persons based on the thought of Joseph Margolis Relying on concepts of cultural realism and post Darwinism Aleksandra Łukaszewicz Alcaraz redefines the notion of the person rather than a human and discusses the various issues of human body enhancement and online implants transforming modes of perception cognition and communication She argues that new kinds of embodiment should not make acquiring the status of the person impossible and different kinds of embodiments may be accepted socially and culturally She proposes we consider ethical problems of agency and responsibility critically approaching vitalist posthuman ethics and rethinking the metaphysical standing of normativity to create space for possible cyborgian ethics that may be executed in an Extended Republic of Humanity
