privacy or anonymity do people have when abroad in public space What is the rationale for these rights In what respect does CCTV surveillance compromise them To what extent does the state s interest in crime prevention warrant encroachment upon such privacy and anonymity rights This book offers the first extended systematic treatment of these issues In it the author develops a theory concerning the rationale for the entitlement to privacy and anonymity in public space based on notions of liberty and dignity She examines how CCTV surveillance may compromise these rights drawing on everyday conventions of civil inattention among people in the public domain She also considers whether and to what extent crime control concerns could justify overriding these entitlements The author s conclusion is that CCTV surveillance should be appropriate only in certain restrictively defined situations The book ends with a proposal for a scheme of CCTV surveillance that reflects this conclusion SIECUS Report ,1978
