Older People and Migration Susan Lawrence, Sandra Torres, 2017-10-02 With neo liberal resource rationing and the onus of cost shifting from the state to individuals families and communities migration issues can add a further layer of complexity to the question of caring for the elderly By presenting examples from a variety of contexts and countries this book will stimulate readers into considering new approaches to their own local situation in an attempt to find sustainable social work responses and in helping to build intergenerational solidarity and social capital Contributions to the book focus on patterns of migration older migrants migrating families and migrant carers Facilitating and supporting social solidarity both locally and internationally requires social workers to understand the different contexts for elderly social work both within their own country and internationally Central to this area of work is the promotion of values that respect differences and uphold the principles of human rights and social justice This book highlights the need to consider migration as a driver for social change offering the opportunity for new forms of social solidarity that can adapt and support people inter generationally and sustainably in later life This book was originally published as a special issue of the European Journal of Social Work

Economics of Undocumented Migration Slobodan Djajić, Alexandra Brausmann, 2024-03-25 Undocumented international migration is an increasingly important political social and economic issue The articles collected in this volume provide a framework for the study of some key decisions that potential migrants are confronted with when considering a move abroad This includes the timing of departure the method of financing the move the choice between documented and undocumented modes of entry the optimal duration of the stay abroad how much to save etc The various chapters illustrate how decisions of migrants are shaped not only by immigration policies and enforcement measures of the host country but

also by their own personal characteristics and the economic environment they face at home and abroad At the macroeconomic level the focus is on the analysis of the effectiveness of immigration policies in controlling the inflow and the stock of undocumented aliens The question of international cooperation between the host and transit countries is also examined The Wall Around the West Peter Andreas,Timothy Snyder,2000 As economic and military walls have come down in the post Cold War era states have rapidly built new barriers to prevent a perceived invasion of undesirables This work examines the practice politics and consequences of building these walls

Migrant Labour in Japan Y. Sellek,2000-11-17 This book explores the impact of foreign migrant workers on elements of sovereign power in Japan and examines how the country s immigration control has been reshaped by the existence of these workers It traces the changing situation of foreign migrant workers in Japan from the mid 1980s to the present day A particular focus is the transition of these workers from temporary workers to long term stayers or social beings

Immigration and the Family Alan Booth,Ann C. Crouter,Nancy Landale,Nancy S. Landale,2012-11-12 This book documents the third in a series of annual symposia on family issues the National Symposium on International Migration and Family Change The Experience of U S Immigrants held at Pennsylvania State University Although most existing literature on migration focuses solely on the origin numbers and economic success of migrants this book examines

how migration affects family relations and child development By exploring the experiences of immigrant families particularly as they relate to assimilation and adaptation processes the text provides information that is central to a better understanding of the migrant experience and its affect on family outcomes Policymakers and academics alike will take interest in the questions this book addresses Does the fact that migrant offspring get involved in U S culture more quickly than their parents jeopardize the parents effectiveness in preventing the development of antisocial behavior How does the change in culture and language affect the cognitive development of children and youth Does exposure to patterns of family organizations so prevalent in the United States cohabitation divorce nonmarital childbearing decrease the stability of immigrant families Does the poverty facing many immigrant families lead to harsher and less supportive child rearing practices What familial and extra familial conditions promote resilience in immigrant parents and their children Does discrimination coupled with the need for rapid adaption create stress that erodes marital quality and the parent child bond in immigrant families What policies enhance or impede immigrant family links to U S institutions

The Migration of Power and North-South Inequalities E. Paoletti, 2010-11-17 This book examines negotiations on migration in the Mediterranean It argues that migration is a bargaining chip which countries in the South use to increase their leverage versus their counterparts in the North This proposition opens up new understandings reframing relations of inequalities among states

Intergovernmental Relations on Immigrant Integration in Multi-Level States Ilke Adam, Eve Hepburn, 2021-07-12 This book explores how governments in multi level states coordinate immigrant integration policies It sheds light on how the decentralization of immigrant integration to substate regions can lead to conflict or cooperation and how a variety of factors may shape different approaches to migrants Immigrant integration is an increasingly important policy area for governments However in multi level states immigrant integration is rarely the responsibility of the central government Instead it is often decentralized to substate regions which may have formulated their own unique approaches The way in which migrants are included into one part of a state may therefore be radically different from the experiences of migrants in another How do multi level states deal with potentially diverging approaches This book examines how governments coordinate on immigrant integration in multi level states Four multi level states form the backbone of the analysis two of which are federal Canada and Belgium and two that are decentralized Italy and Spain We find that intergovernmental dynamics on immigrant integration are shaped by a variety of factors ranging from party politics to constitutional power struggles This analysis contributes not only to our understanding of intergovernmental relations in multi level systems it also enhances our knowledge of the myriad ways in which different regions seek to include migrants into their societies economies and political systems The chapters in this book were originally published as a special issue of Regional and Federal Studies

Migration Law and the Externalization of Border Controls Anna Liguori, 2019-03-27 Over the last few decades both the European Union and European States have been implementing various strategies to externalize border controls with the declared

intent of saving human lives and countering smuggling but with the actual end result of shifting borders circumventing international obligations and ultimately preventing access to Europe What has been principally deplored is the fact that externalizing border controls risks creating legal black holes Furthermore what is particularly worrying in the current European debate is the intensification of this practice by multiple arrangements with unsafe third countries exposing migrants and asylum seekers to serious human rights violations This book explores whether European States can succeed in shifting their responsibility onto Third States in cases of human rights violations Focusing in particular on the 2017 Italy Libya Memorandum of Understanding the book investigates the possible basis for triggering the responsibility of outsourcing States The second part of the book examines how the Italy Libya MoU is only a small part of a broader scenario exploring EU policies of externalization A brief overview of the recent decisions of the EU Court vis vis two aspects of externalization the EU Turkey statement and the issue of humanitarian visas will pave the way for the conclusions since in the author's view the current attitude of the Luxembourg Court confirms the importance of focusing on the responsibility of European States and the urgent need to investigate the possibility of bringing a claim against the outsourcing States before the Court of Strasbourg Offering a new perspective on an extremely topical subject this book will appeal to students scholars and practitioners with an interest in European Law International Law Migration and Human Rights *Textbook on Immigration and Asylum Law* Gina Clayton, Caroline Sawyer, 2012-07-19 This volume examines the law and system of control which govern immigration and asylum in the UK It begins with the historical and legal context explains who is subject to immigration control and describes the legal and administrative structure of the system
