The Kazakhs Studies Of Nationalities In The Ussr:

The Nationalities Question in the Soviet Union Graham Smith, 1990 An indispensable guide to the nationalities and states recently become visible after the obscuring demise of the Soviet Empire Written by 25 scholars the new edition details the major political developments in each region locating each nationality within its historical geopolitical and cultural context The volume also includes comparative statistical data and includes the key Northern Eurasia players in 1996 Russia The Baltic States the Ukraine Belrus Moldova Armenia Azerbaijan Georgia Kazakhstan Uzbekistan Turkmenistan Tajikistan and Kyrgyzstan Annotation copyright by Book News Inc Portland OR *Soviet Nationalities Survey*, 1983 **Ethnic Relations in the USSR** Rasma Karklins, 2024-11-26 Ethnic Relations in the USSR 1986 focuses on popular ethnic attitudes and behaviour among the various nations and nationalities of the Soviet Union Ethnicity matters not only in Soviet high politics and in economic and cultural planning but is also a dominant force in the daily lives of many Soviet citizens Using a combination of political and sociological methods the author draws out the patterns and determinants of ethnic relations among the major nationalities at both the group and individual levels Co winner of the 1987 American Political Science Association Ralph E Bunche Award *Encyclopedia of European Peoples* Carl Waldman, Catherine Mason, 2006 Presents an alphabetical listing of information on the origins prehistory history culture languages relationships to other cultures and more regarding European peoples **The Nationalities Question in the Post-Soviet States** Graham Smith, 1996 This volume examines nationality and ethnic relations in the post Soviet states It takes account of the changes since the break up of the Soviet Union in 1989 provides overviews of nationalities policy in the Soviet period and the post Soviet states and covers the different nationalities **Historical Dictionary of Kazakhstan** Didar Kassymova, Ustina Markus, 2012-05-18 The Historical Dictionary of Kazakhstan contains a chronology an introductory essay an extensive bibliography and several hundred cross referenced dictionary entries *Routledge Revivals: Turkic Oral Epic Poetry (1992)* Karl Reichl, 2018-05-08 Originally published in 1992 Turkic Oral Poetry provides an expert introduction to the oral epic traditions of the Turkic peoples of central Asia The book seeks to remedy the problem of non specialists lack of access to information on the Turkic traditions and in the process it provides scholars in various disciplines with material for comparative investigation The book focuses on central traditions of this region specifically those of the Uzbeks Kazakhs Karakalpak s and Kirghiz and looks at the historical and linguistic background to a survey of the earliest documents portraits of the singers and of performance considerations of genre story patterns and formulaic diction and discussions of composition in performance memory rhetoric and diffusion **Kazakhstan - Ethnicity, Language and Power** Bhavna Dave, 2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev

and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness *The Soviet Nationality Reader* Rachel Denber,2018-02-06 Setting the context for the crisis that has fragmented the former USSR this reader presents key essays by notable Western scholars who have shaped the debates within the field of Soviet nationality studies Focusing first on the historical development of the Soviet multiethnic state the discussions then turn to specific problem areas including federalism elites economy language policy and nationalism An introductory essay by the editor discusses how the works in teh book contribute to our understanding of the current disintegration and analyzes opposing perspectives in the debates Intended for use as a textbook in undergraduate or graduate courses on Soviet nationality problems or Soviet and post Soviet domestic politics this anthology will be valuable for students and professors alike *The Heritage of Soviet Oriental Studies* Michael Kemper,Stephan Conermann,2011-02-01 This book examines the Russian Soviet intellectual tradition of Oriental and Islamic studies which comprised a rich body of knowledge especially on Central Asia and the Caucasus The Soviet Oriental tradition was deeply linked to politics probably even more than other European Orientalisms It breaks new ground by providing Western and post Soviet insider views especially on the features that set Soviet Oriental studies apart from what we know about its Western counterparts for example the involvement of scholars in state supported anti Islamic agitation the early and strong integration of Orientals into the scientific institutions the spread of Oriental scholarship over the Oriental republics of the USSR and its role in the Marxist reinterpretation of the histories of these areas The authors demonstrate the declared emancipating agenda of Soviet scholarship with its rhetoric of anti colonialism and anti imperialism made Oriental studies a formidable tool for Soviet foreign policy towards the Muslim World and just like in the West the Iranian Revolution and the mujahidin resistance to the Soviet occupation of Afghanistan necessitated a thorough redefinition of Soviet Islamic studies in the early 1980s Overall the book provides a comprehensive analysis of Soviet Oriental studies exploring different aspects of writing on Islam and Muslim history societies and literatures It also shows how the legacy of Soviet Oriental studies is still alive especially in terms of interpretative frameworks and methodology after 1991 Soviet views on Islam have contributed significantly to nation building in the various post Soviet and Russian Muslim republics *Images of the Post-Soviet Kazakhstan* Suchandana Chatterjee,2019-10-28 The study revolves round the relationship between space and transitional identity in Kazakhstan in the

post Soviet period Emergent discourses about cosmopolitanism suggest multiple interactions in a transitional space The cosmopolitanism of our times implies the dynamic responses of communities in transition The diversities and heterogeneities instead of the specifics the encounters the networks the challenges the ways of living the multitude of fates need to be considered The picture is far bigger as there are infinite ways of being and belonging The images are of the many and as suggested here relate to the Kazakh conscience The Kazakh conscience represents a repertoire of diverse opinions regarding Eurasianism intellectuals reformist agenda zhuz legacy people s histories What stands out is the wider milieu of a cosmopolitan Almaty which is the home of a cultural elite or a citified Astana that has been showcased as the appropriate site of the Kazakhs steppe identity The variety is also seen in the case of Uyghur neighbourhoods of Almaty in the frontiers of Akmolinsk oblast reminiscent of Tsarist Russia s Cossack military fortresses in gulag memorials near Astana and in the Caspian hub Atyrau that is iconised as the oil fountain of the present century Kazakh borderlands have a completely different profile that of shared spaces The Kazakhs attachment to their homeland is a constant but the question is whether that territorial reality fits into other paradigms of identity and belonging Such questions arise in the case of Mongolian Kazakhs and Uyghurs of Semirechie in both cases the sentiment of place is strong compared to the overwhelming global experiences of the mainland Kazakhs Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka

interested in conflict regulation and post Soviet politics Soviet Orientalism and the Creation of Central Asian Nations Alfrid K. Bustanov, 2014-11-20 Orientalism the idea that the standpoint of Western writers on the East greatly affected what they wrote about the East the Other applied also in Russia and the Soviet Union where the study of the many exotic peoples incorporated into the Russian Empire often in quite late imperial times became a major academic industry where as in the West the standpoint of writers greatly affected what they wrote Russian Soviet orientalism had a particularly important impact in Central Asia where in early Soviet times new republics later states were created often based on the distorted perceptions of scholars in St Petersburg and Moscow and often cutting across previously existing political and cultural boundaries The book explores how the Soviet orientalism academic industry influenced the creation of Central Asian nations It discusses the content of oriental sources and discourses considers the differences between scholars working in St Petersburg and Moscow and those working more locally in Central Asia providing a rich picture of academic politics and shows how academic cultural classification cemented political boundaries often in unhelpful ways **Guide to the Republics of the Former Soviet Union** David T. Twining, 1993-07-27 Chronicles the emergence of fifteen new states from the former Soviet Union Discusses the governments cultures and religions of this new Eurasia Film and Identity in Kazakhstan Rico Isaacs, 2018-02-07 Cinema and nationalism are two fundamentally modern phenomena but how have films shaped our understanding of the creation the imagining of Central Asian nations Here Rico Isaacs uses cinema as an analytical lens to explore how the Kazakh national identity has been constructed and contested Drawing on an analysis of Kazakh films from the last century and featuring new interviews with directors and critics involved in the Central Asian film industry his book traces the construction of nationalism within Kazakh cinema from the country's inception as a Soviet Republic to a modern independent nation Isaacs identifies four narratives since the collapse of the Soviet Union a warrior like ethnic narrative rooted in the 18th Century struggles against the Mongolian Oirat tribes a civic inspired narrative cemented in the Stalinist deportations of the 1930s and 40s a religious narrative founded within the mystic and philosophical religion of Tengrism and the cult of the Sky God and a socio economic narrative which roots Kazakh nationhood and identity in contemporary social divisions the lived day to day experiences of ordinary citizens and the struggles they face with authority These last two tropes demonstrate how cinema has emerged as a site of dissent against the country's authoritarian regime under President Nazarbayev Film and Identity in Kazakhstan advances our understanding of Kazakhstan and nationalism by demonstrating the multiple and inessential character of each and illustrates the important role of cinema in contesting political power in the post Soviet space **The Routledge International Handbook of Language Education Policy in Asia** Andy Kirkpatrick, Anthony J. Liddicoat, 2019-04-17 This must have handbook offers a comprehensive survey of the field It reviews the language education policies of Asia encompassing 30 countries sub divided by regions namely East Southeast South and Central Asia and considers the extent to which these are being implemented and with what effect The

most recent iteration of language education policies of each of the countries is described and the impact and potential consequence of any change is critically considered Each country chapter provides a historical overview of the languages in use and language education policies examines the ideologies underpinning the language choices and includes an account of the debates and controversies surrounding language and language education policies before concluding with some predictions for the future

Everyday Belonging in the Post Soviet Borderlands examines the Russophone communities in peripheral cities adjacent to the Russian borders in Estonia and Kazakhstan The research adopts a cross disciplinary space sensitive approach that focuses comparatively on individual memories narratives and performances Based on ethnographic examples this book reconstructs belonging as a complex dialectical relationship between inclusion and exclusion This relationship it is argued manifests itself through a continuous spiral of boundary construction appropriation and transgression among different versions of
