Laurence C. Walker, 2014-07-03 When the first European explorers reached the southern shores of North America in the early seventeenth century they faced a solid forest that stretched all the way from the Atlantic coast to eastern Texas and Oklahoma The ways in which they and their descendants used and abused the forest over the next nearly four hundred years form the subject of *The Southern Forest* In chapters on the explorers pioneers lumbermen boatbuilders and foresters Laurence Walker chronicles the constant demands that people have made on forest resources in the South He shows how the land's very abundance became its greatest liability as people overhunted the animals clearcut the forests and wore out the soil with unwise farming practices all in a mistaken belief that the forest's bounty including new ground to be broken was inexhaustible With the advent of professional forestry in the twentieth century however the southern forest has made a comeback A professional forester himself Walker speaks from experience of the difficulties that foresters face in balancing competing interests in the forest How for example does one reconcile the country's growing demand for paper products with the insistence of environmental groups that no trees be cut Should national forests be strictly recreational areas or can they support some industrial logging How do foresters avoid using chemical pesticides when the public protests such natural management practices as prescribed burning and tree cutting This personal view of the southern forest adds a new dimension to the study of southern history and culture The primeval southern forest is gone but with careful husbandry on the part of all users the regenerated southern forest may indeed prove to be the inexhaustible resource of which our ancestors dreamed

Conrad,2016-04-04 The Fourth Edition is again based on Robert Kimbrough's meticulously re-edited text. Missing words have been restored and the entire novel has been repunctuated in accordance with Conrad's style. The result is the first published version of *Heart of Darkness* that allows readers to hear Marlow's voice as Conrad heard it when he wrote the story. *Backgrounds and Contexts* provides readers with a generous collection of maps and photographs that bring the Belgian Congo to life. Textual materials topically arranged address nineteenth-century views of imperialism and racism and include autobiographical writings by Conrad on his life in the Congo. New to the Fourth Edition is an excerpt from Adam Hochschild's recent book *King Leopold's Ghost* as well as writings on race by Hegel, Darwin, and Galton. Criticism includes a wealth of new materials including nine contemporary reviews and assessments of Conrad and *Heart of Darkness* and twelve recent essays by Chinua Achebe, Peter Brooks, Daphne Erdinast, Vulcan, Edward Said, and Paul B. Armstrong, among others. Also new to this edition is a section of writings on the connections between *Heart of Darkness* and the film *Apocalypse Now* by Louis K. Greiff, Margot Norris, and Lynda J. Dryden. A Chronology and Selected Bibliography are also included. *Out of the Shadows* George Gurney Cox,1927
