The Lords Prayer Bridge To A Better World:

The Lord's Prayer C. G. Weeramantry, 2005 Universalising International Law C. G. Weeramantry, 2004 Universalising international law is one of the most urgent tasks awaiting those who wish to advance the discipline Though all the world acknowledges its universal nature it has long been confined in a largely monocultural mould Indeed a tendency is sometimes discernible for international law to be compartmentalised and to function within a close cabinet of technical rules little known to those outside the ranks of specialists This volume looks initially at some general aspects of universalisation It thereafter adopts a universalist approach to some of the sources of international law and it deals with peace the bedrock of international law which likewise requires a universalist approach It is hoped that these studies will highlight the imperative need that now exists for extending the conceptual framework of international law thereby buttressing its moral authority and widening its appeal at a time when universal acceptance of international law is one of the most pressing demands of the international system **Mining Morality** William P. George, 2019-10-11 Employing self sharpening tools found in the work of theologian and philosopher Bernard Lonergan Pope Francis encyclical *Laudato si* and international law William P George brings mining to personal and collective moral awareness by prospecting for ethics at selected sites 1 Butte Montana the Richest Hill on Earth once bound to Chuquicamata Chile by a company that spanned two continents and nearly owned a state 2 the tiny island nation of Nauru called Pleasant Island until it was devastated by phosphate mining and the breaking of a sacred trust by foreign powers 3 the deep seabed governed by the United Nations Law of the Sea a constitution for the oceans that regards much of the resource rich seabed as humankind s common heritage 4 Africa with its uranium mines but also its conflicts over what being nuclear means in the wake of colonialism apartheid and Hiroshima and 5 mineral rich asteroids speeding through space where mining rights are contested even as space entrepreneurs look to become the world s first trillionaires George introduces readers to remarkable moral miners the women of Butte and Chuquicamata a World Court judge from Sri Lanka and the Rocket Boys of Coalwood West Virginia to name a few and leads them to consider not only the morality of mining what s good and not so good about resource extraction but also the mining of morality a venture that Socrates called the examined life **Human Rights and Dynamic Humanism** Winston P. Nagan, John A.C. Cartner, Robert J. Munro, 2016-11-07 This book emphasizes a forgotten aspect of human rights i e to establish that human rights captures its meaning from human activism and advocacy It explores factors which drive the advocacy of human rights integrating religious values reflected in human rights law The book explores human rights activism in the history of ideas and the contributions of Celtic culture It develops the framework for understanding the human rights struggle and the advocacy functions which drive it exploring the critical role of emotion in the form of sentiment either positive or negative that promotes or prevents human rights violations The negative sentiment chapter explores the major forms of human rights violations Positive sentiment explores the role of affect empathy and human solidarity in the promotion of the culture of

human rights Further chapters explore affect gender and sexual orientation human rights and socio economic justice human rights and revolution transitional justice indigenous human rights nuclear weapons and intellectual property Global Poverty Justin Thacker,2017-03-28 While a number of secular philosophers have written on global poverty theologians have either steered clear entirely or simply mimicked the political analysis currently on offer Christian authors have argued either for a free market solution to global poverty or for a radical reform of global capitalism as the best approach but the theological underpinnings of such conclusions are noticeable by their absence Justin Thacker offers a new way forward He suggests deeply theological answers to questions around the effect of capitalism on global poverty and whether aid is really a sustainable long term solution for the world s poor This book will challenge theologians church leaders and congregations to consider much more seriously the huge implications of faith and theology on our attitude to those who live in extreme poverty Banning the Bomb Siddharth Mallavarapu,2007 **Robbie** Christine Jennings,2019-06-11 Robbie Jennings came from Idle an industrial village in Yorkshire but he was never an idle man His career was a story of the unforeseeable even improbable advance to high position and worldwide reputation of a straightforward man of simple origins from his entry in the ODNB by Sir Franklin Berman Robbie achieved this eminence through academic success experience abroad service in military intelligence years of teaching at Cambridge and the Inns of Court and as counsel in major international border disputes Included in this book are many passages of his own writings his entertaining and perceptive observations on his travels and many comments on legal problems He is remembered by former pupils and colleagues from around the world for his wisdom humanity and humour His private passions were for the Lake District for music cricket and animals and above all for his family Written by Robbie s wife and close companion for half a century this book provides for the general reader some idea of the scope and effectiveness of international law with Robbie s own comments on its continuous development

Learning from All the Faithful Bradford E. Hinze,Peter C. Phan,2016-10-31 Do various members of the church regardless of their generation gender race sexual orientation country of origin and whatever their doubts are about official church teachings and policies have any role in determining safeguarding and assessing the authentic teaching and praxis of the faith of the church This has always been a haunting question in the life of the Christian church though only recently acknowledged because of the long standing role of male clergy of European descent with a Eurocentric outlook who held hierarchical offices and determined official doctrines and moral and disciplinary codes There have been controversies that bear on these matters over the course of the church s history But it has only been over the last fifty years that the question has received increasing attention among Roman Catholics in terms of the baptismal anointing of the Spirit that bestows the gift of the sense of the faith on individuals and the collective sense of the faithful This gift provides discerning skills to recognize receive and imaginatively and practically apply the living faith in history and society This book explores these issues from historical sociological systematic and theological ethical perspectives infused by the contributions of world

Christianities *Lent & the Passion of Our Lord and Savior Jesus Christ* Charles A. Minor, Comfort M. Minor, 2025-07-04

Every year Christians around the world celebrate the season of Lent. It is the period of the year to commemorate the culmination of the Mission of the Messiah. To rethink His sacrificial suffering trial and death on Calvary Cross for the redemption of the world and for personal spiritual reflection. The authors Charles and Comfort Minor have ably grabbed the attention of readers to engage them in the conversation of who the characters and accomplices in the plot to inflict suffering and death on Jesus were and what all of that mean for us today. This book is a good study guide for Lent and particularly the Passion or Holy Week.

War on terror' Chris Miller, 2013-01-18. The term War on Terror WOT covers a mass of interlinked topics. Here an outstanding group of authors and academics dissect them from ethical, political, legal, economic and historical perspectives. Drawn from the world famous Oxford Amnesty Lectures, the essays are substantial contributions to their fields and of abiding relevance. Here it is argued that members of active terrorist groups should be pre emptively executed, that there is no provision for WOT in international law, that WOT is not cost efficient, that war and terrorism can no longer be distinguished and that the term terrorist has been captured by a specific political constituency. The arguments of the celebrated contributors from Ahdaf Soueif to Joanna Bourke are confirmed or contradicted by their respondents, resulting in broad scholarly coverage of the issues. The book concludes with a fatwa against terrorism. WOT lies at the heart of current debate about immigration, multiculturalism and foreign policy. It is one of the determining debates in the politics of today. This volume will be of interest to students of politics, law and religion and to anyone concerned with current affairs. It covers the politics of the Middle East and the Iraq War, human rights in Islam and the West and the ethics of intervention. This is a powerful contribution to an urgent debate.
